

May 14, 2018

Mr. Theodore Wegleitner  
President, Lakeview Memorial Hospital  
927 West Churchill Street  
Stillwater, MN 55082

Dear Mr. Wegleitner,

As you are likely aware, the Minnesota Department of Health is conducting a public interest review of a proposal to add beds at Regions Hospital in Saint Paul. To finalize our review, MDH is seeking to better understand what share of the currently unused bed capacity serving the east metro area is actually available as surge capacity.

We would appreciate if you could provide answers to the following questions specific to your facility via email within a week:

1. What is the number of available inpatient beds as of May 2018?
2. Of the currently unused inpatient licensed bed capacity,
  - a. How many beds could be brought online within a short period of time and without structural change or reorganization of patient rooms (e.g. leaving single rooms as single rooms or converting observation units to inpatient units)?
  - b. How many beds could be brought online with minor structural changes or reorganization of rooms (e.g. refurbishing space not used for inpatient care)?

Again, we would appreciate if you could respond to these questions by **Wednesday, May 23, 2018**. Please respond by sending an e-mail to Alisha Simon at [alisha.simon@state.mn.us](mailto:alisha.simon@state.mn.us). You may reach out for questions by calling Alisha at 651-201-3557.

We very much appreciate your assistance and the short turnaround.

Sincerely,

Stefan Gildemeister  
Director, Health Economics Program
