COVID-19 Symptoms PSA Transcript

People with COVID-19 may be short of breath, have a cough, fever, muscle pain, headache, sore throat, chills, fatigue, runny nose or congestion, or loss of taste or smell.

Sometimes, people may throw up, get diarrhea, or their stomach may hurt.

Get tested if you have COVID-19 symptoms.

Talk to your doctor, a local clinic, or use the online screening tool on the Minnesota COVID Response website (https://mn.gov/covid19/for-minnesotans/if-sick/get-tested/index.jsp) to help determine if you should get tested.

Seek help from family, friends or other helpers if you do not know how to use the website or if it is not in a language you need.

For up to date information about COVID-19, visit health.mn.gov.
