COVID-19: Close Contacts and Tracing

12/16/2020

COVID-19 has spread to all 87 counties in MN. Here’s what you need to know:

Close Contacts and Tracing

COVID-19 can spread from person to person, often before symptoms appear. It is important to report any close contact with someone who has tested positive for COVID-19. If you have been in close contact with a confirmed case, you will be contacted by a public health investigator.

- If you have been in close contact with a person who has tested positive for COVID-19, you should stay home and monitor your health.
- If you have been in close contact with someone who is a confirmed case, you should self-monitor for symptoms.
- If you develop symptoms, please stay home and contact your health care provider.

Close Contacts and Tracing (https://www.health.state.mn.us/diseases/coronavirus/close.html) for more information.

For help with any COVID-19 questions, please call the Minnesota Department of Health at 651-201-6412 or 800-658-1636.

Stay Safe MN
