COVID-19 Sports Guidance for Youth and Adults

This guidance has been updated with a “Key requirements” section and a new “Requirements for recreational race events” section.

This guidance document outlines prevention strategies to reduce the spread of COVID-19 during sports activities. This document is intended for organizers and participants of all ages, in sports activities organized by entities, associations, clubs, or organizations providing for registration of participants and oversight on a regular basis for a defined period of time.

For guidance about indoor leagues such as bowling, pool, darts, or bean bags, please use the Preparedness Plan Requirements Guidance - Recreational Entertainment & Meetings (dl.mn.gov/sites/default/files/pdf/COVID_19_preparedness_plan_requirements_guidelines_recreational_entertainment.pdf) found at Stay Safe Guidance for Entertainment (staysafe.mn.gov/industry-guidance/entertainment.jsp).

Key requirements

✓ Adopt and implement a COVID-19 Preparedness Plan as required by Executive Orders issued by Governor Tim Walz (mn.gov/governor/news/executiveorders.jsp). An organization’s COVID-19 Preparedness Plans must address the requirements listed below as well as consider the outlined recommendations listed in this document. The plan should be updated when there are changes to public health official guidelines regarding group gatherings or sports activities.

▪ All businesses (sports facilities, gyms, associations, sports clubs/teams, etc.) are required to develop a program-specific plan. Templates for developing a program-specific plan can be found at Stay Safe MN (staysafe.mn.gov).

▪ All youth sports programs must also follow the parameters outlined in the COVID-19 Prevention Guidance for Youth and Student Programs (www.health.state.mn.us/diseases/coronavirus/schools/socialdistance.pdf). “Youth programs” are programs providing care or enrichment to children or adolescents such as day camps, summer activities, and recreational or educational classes that require registration and have on-site supervision. “Youth programs” does not include licensed child care facilities or school-district summer learning programs.
The COVID-19 Preparedness Plan must be available and accessible to participants, volunteers, and employees.

Games, scrimmages, and practices
- For youth and adult organized sport practices or training (non-game activities), pod sizes cannot exceed 25 people per pod, either inside or outside. Pod count is composed of players and coaches.
- Games (played indoors or outdoors) can have the total number of players, coaches, referees, umpires, etc. as needed to hold the game as long as the total number of people does not exceed the total number allowed by the venue or facility (check capacity limits).

Outdoor race events
- The “course maximum”—meaning the number of persons allowed on the course at one time—is 250 participants or the total square footage of the course divided by 113, whichever is less.
- Participants must be divided into completely separated participant groups to ensure that the number of participants on the course at one time never exceeds the course maximum.
- Event participants must be further divided into “pods” of no more than 25 individuals and socially distanced (meaning 6 feet of distance is maintained between people from different households) within the pods.
- Any race events (including run/walk races, triathlons, bicycle races, or cross-country skiing races) that are half-marathon length or longer can only be held in venues that have defined perimeters and clear entrance and exit points (i.e., not on public roadways). This is to ensure that capacity limits are adhered to, that crowding can be controlled, and that social distancing is maintained among spectators.

Adhere to social distancing requirements. Maintain 6 feet between participants when they are not playing (on the bench, in the dugout, on the sideline, etc.).

Follow face covering requirements. As of July 25, 2020, per the Governor’s Executive Order, people in Minnesota will be required to wear a face covering in all indoor businesses and public indoor spaces.

Important risk considerations

Level of contact in a sport
Before starting games for any sport, consider the risk associated with that sport in terms of COVID-19 being spread between players.

- The more physical or close contact that occurs the greater risk there is in spreading illness.
- A sport or training that takes place indoors is riskier than if the activity is done outdoors.
- Resources for Risk Categorization of Sports:
Know before you play

There may be an increased risk of COVID-19 when participating in a game or tournament, and COVID-19 activity may be different in different regions of the state, also contributing to a possible increase in risk.

Traveling out of state to participate in sports activities is strongly discouraged. However, if teams are considering traveling to other regions or states for games, they should be aware of COVID-19 activity to inform their decision.

☑ For Minnesota:
  ▪ [Situation Update for COVID-19](https://www.health.state.mn.us/diseases/coronavirus/situation.html)
  ▪ [Governor’s COVID-19 Dashboard](https://mn.gov/covid19/data/covid-dashboard/index.jsp)

☑ For the broader United States:
  ▪ [Johns Hopkins University of Medicine COVID-19 United States Cases by County](https://coronavirus.jhu.edu/us-map)
  ▪ [Center’s Disease Control and Prevention CDC COVID Data Tracker](https://www.cdc.gov/coronavirus/2019-ncov/cases-updates/cases-in-us.html).

Requirements for holding games, scrimmages, and practices

☑ Create protocols that minimize crowding at practices.
  ▪ Friends and family should not attend practices to avoid crowding.
  ▪ If necessary for spectators to be at practices, ensure that 6 feet social distancing between households is being adhered to and venue/facility guidance is being followed.

☑ Select an appropriate venue for your competition.
  ▪ Consider the size of the team(s) (including players and staff) and whether the limited capacity of the venue (indoor or outdoor) is able to accommodate the team(s).
    ▪ Check the capacity restrictions with the venue.
    ▪ Facility and venue guidance is available at [Minnesota Stay Safe Guidance](https://staysafe.mn.gov/industry-guidance/index.jsp). Including:
COVID-19 SPORTS GUIDANCE FOR YOUTH AND ADULTS

- Stay Safe Guidance for Outdoor Recreation Entities (staysafe.mn.gov/industry-guidance/outdoor-recreation.jsp)
- Stay Safe Guidance for Entertainment (staysafe.mn.gov/industry-guidance/entertainment.jsp)

- A visual guide to capacity limits can be found here: Minnesota’s Stay Safe Plan (mn.gov/covid19/for-minnesotans/stay-safe-mn/stay-safe-plan.jsp).

✔ Follow face covering requirements.
  - As of July 25, 2020, per the Governor’s Executive Order, people in Minnesota will be required to wear a face covering in all indoor businesses and public indoor spaces.
  - This Executive Order includes exemptions for people who are unable to wear or tolerate a face covering due to medical or other reasons. There are also situations in which a face covering may be temporarily removed or where face coverings are not required. For example, a person may temporarily remove their face covering when participating as an athlete in an organized sport in an indoor business or public indoor space while the level of exertion makes it difficult to wear a face covering.
  - Face coverings are strongly encouraged, but not required, when participating as an athlete in an indoor or outdoor organized sport, to the extent possible when social distancing is not being maintained.

More information about face covering requirements and exemptions is available at Masks and face coverings (www.health.state.mn.us/diseases/coronavirus/prevention.html#masks).

- Additional information is also provided at:
  - Face Covering Requirements and Recommendations under Executive Order 20-81 (www.health.state.mn.us/diseases/coronavirus/facecover.html)
  - Frequently Asked Questions About the Requirement to Wear Face Coverings (www.health.state.mn.us/diseases/coronavirus/facecoverfaq.html).

✔ Create protocols to maintain health checks and screening of participants and staff/volunteers.
  - Any staff, volunteers, or participants who are sick must stay home.
  - Have policies in place outlining the process for those who become sick while participating in a sport.
  - Be aware that persons can get a positive COVID-19 test even if they do not have symptoms.

✔ Identify a plan administrator for your organization’s COVID-19 plan.
  - Communicate your COVID-19 plan to officials, umpires, and trainers.
  - This should include expectations around screening, face coverings, and other prevention efforts.
  - Plan templates are available at Stay Safe Guidance for All Business Entities (staysafe.mn.gov/industry-guidance/all-businesses.jsp).

✔ Create protocols that are considerate of coaches, staff, players, volunteers, and participants at highest risk of complications from COVID-19.
COVID-19 SPORTS GUIDANCE FOR YOUTH AND ADULTS

- Executive Order 20-55, Protecting the Rights and Health of At Risk Populations during the COVID-19 Peacetime Emergency (www.leg.state.mn.us/archive/execorders/20-55.pdf)

Recommendations for slowing the spread of COVID-19 during play

✓ Consider whether contact in the sport can be modified. For example, can contact be reduced among players during practice, and even during games, in order to limit close contact?
✓ Consider whether practices/games can occur outside, as in general, being outside reduces the risk of COVID-19 transmission.
✓ Minimize sharing of objects.
  - Do not share individual water bottles, community snacks, or towels.
  - Encourage use of dedicated personal equipment such as bats, mitts, rackets, etc.

If a member of your team or organization has COVID-19

✓ If a case of COVID-19 is reported to you, notify MDH by email at health.sports.covid19@state.mn.us. MDH will be available to answer questions you have and can provide guidance. MDH also has template notification letters for close contacts or others on the team who may have questions about their risk of COVID-19.
✓ MDH/LPH will interview the case or parent/guardian, determine the dates when the case was infectious, identify anyone that may have been exposed, and collect contact information for those individuals.
  - People identified as exposed (close contacts) are those who spent at least 15 minutes within 6 feet of the case while the case was infectious (the infectious period starts 2 days before symptom onset, or 2 days before the case was tested, if they had no symptoms).
  - Exposed persons (close contacts) will need stay home for 14 days from the last contact with the COVID-19 case.
  - If necessary, MDH may contact your organization for information on close contacts.
  - It is important to keep rosters of who was at practices and games each day so we can do contact tracing quickly. For more information on how we do contact tracing, see Tracing COVID-19 (www.health.state.mn.us/diseases/coronavirus/tracing.html).
  - You can find more information on what contacts need to do at What To Do if You Have Had Close Contact With a Person With COVID-19 (www.health.state.mn.us/diseases/coronavirus/contact.pdf).
Individuals who are sick with COVID-19 will need to stay out for 10 days from symptom onset. You can find most up to date information on these recommendations at If You Are Sick (www.health.state.mn.us/diseases/coronavirus/sick.html).

☑ In general, you do not need to cancel practice or games once you hear of a case. If such steps are needed, MDH/LPH will reach out to you and work with you to determine next steps.

☑ If you know you have a case but haven’t heard from MDH or LPH and you still have concerns or need notification resources, please email us at health.sports.covid19@state.mn.us.

Requirements for outdoor recreational race events

Key information

☑ This guidance is for outdoor organized recreational races or non-competitive similar events (e.g., running races, “fun runs”/walks, triathlons, bicycle races/rides, charity walks, or cross-country skiing events).

☑ Any race events (including run/walk races, triathlons, bicycle races, or cross-country skiing races) that are half-marathon length or longer can only be held in venues that have defined perimeters and clear entrance and exit points (i.e., not on public roadways). This is to ensure that capacity limits are followed, that crowding can be controlled, and that social distancing is maintained among spectators.

☑ Examples of possible venues include fair grounds, golf courses, stadiums, or athletic fields.

☑ This guidance is not applicable to motorized races. For these events, please use the Preparedness Plan Requirements Guidance – Recreational Entertainment & Meetings (dli.mn.gov/sites/default/files/pdf/COVID_19_preparedness_plan_requirements_guidelines_recreational_entertainment.pdf).

This guidance outlines the requirements for holding organized recreational race events (e.g., run/walk races, triathlons, bicycle races, or cross-country skiing) during the COVID-19 Peacetime Emergency. Unless this guidance imposes a different or additional requirement, any organized race event must also follow the requirements in other sections of this guidance document. Certain race events may have spectators and any event with spectators must follow the requirements of the Preparedness Plan Requirements Guidance – Recreational Entertainment & Meetings (dli.mn.gov/sites/default/files/pdf/COVID_19_preparedness_plan_requirements_guidelines_recreational_entertainment.pdf) with respect to how many spectators are allowed and the steps that must be taken to protect the health and safety of spectators and workers or volunteers. The individual or entity responsible for organizing the race must incorporate applicable requirements from these guidance documents into the COVID-19 Preparedness Plan for the event.
Key elements of an organized race plan

In order to prevent COVID-19 transmission at an organized race, to maintain control over the event, and to facilitate social distancing between participants, volunteers, and employees, all organized races must adhere to the following basic requirements:

✓ **Advance registration.** Registration must occur prior to the race through online or other contact-less methods. Any racing equipment, promotional products or handouts, bibs, etc. should be mailed to participants prior to race day.

✓ **Participant and employee attendance.** The number of participants allowed on the race course at any one time depends on the size and structure of the course:
  
  • The “course maximum”—meaning the number of persons allowed on the course at one time—is 250 participants or the total square footage of the course divided by 113, whichever is less.
  
  • This “course maximum” ensures that there is at least 113 square feet for each person on the course (113 square feet is the U.S. Fire Administration’s recommended space per person to ensure safe social distancing).
  
  • Participants must be divided into completely separated participant groups to ensure the number of participants on the course at one time never exceeds the course maximum.
  
  • Further, races that choose to exceed the course maximum must ensure an entire participant group has completely finished the race and vacated the course before releasing a new group of participants.
  
  • Workers are not counted toward the “course maximum” for purposes of this guidance.

✓ **Participant pods.** Event participants must be further divided into “pods” of no more than 25 individuals and socially distanced (meaning, 6 feet of distance is maintained between people from different households) within the pods.
  
  • Each pod is released in a staggered manner to avoid clustering on the course and intermixing of pods.
  
  • As each pod is released, individual participants should also be released in a staggered manner or positioned to allow for proper social distancing within the pod.

✓ **Face coverings.**
  
  • Staff and volunteers must wear face coverings whenever social distancing (meaning, physical distance of at least 6 feet from persons who are not in the same household) cannot be maintained.
  
  • Participants and spectators are strongly encouraged (but not required) to wear face coverings.
  
  • For more information about face covering requirements refer to Executive Order 20-81 (www.leg.state.mn.us/archive/execorders/20-81.pdf) and related MDH guidance Face Covering Requirements and Recommendations under Executive Order 20-81 (www.health.state.mn.us/diseases/coronavirus/facecover.html) and Frequently Asked Questions About the Requirement to Wear Face Coverings (www.health.state.mn.us/diseases/coronavirus/facecoverfaq.html).
COVID-19 SPORTS GUIDANCE FOR YOUTH AND ADULTS

✅ **Social distancing measures.** Participants must maintain social distancing from other participants, volunteers, and employees through the entire event, including at the starting line, throughout the race, and at the finish line. Staff and volunteers must also maintain social distancing from other staff, volunteers, and participants.

- Social distancing measures should take into account the size and structure of the venue. For example, if the race takes place on a track, lanes should be designated according to pace (for example, with slower participants in outside lanes, and faster participants in inside lanes).
- Markers such as tape, traffic cones, or stickers should be placed on the ground to aid participants in maintaining social distancing.
- Participants should be given staggered arrival times, based on their pod’s start time, to avoid congregating at the starting line. Participants within the same pod should be spaced at the starting line in a manner that allows them to maintain social distancing from each other.
- Participants must immediately leave the course after finishing the race, and employees and volunteers must ensure that participants do not loiter or gather in groups at the finish area.

✅ **Spectators.**

- If a race event is shorter than a half-marathon in length and is not being held in a venue with a defined perimeter (for example, if a course is located on a public roadway, trail, or other public right of way), spectators should be strongly discouraged. The event must not set up seating or other areas that will encourage congregation of spectators. Any persons who do watch the race must adhere to social gathering limits—i.e., groups of no more than 25 individuals spaced out along the course in such a way that they maintain social distancing from other groups and from any participants, staff, or volunteers.
- Secluded courses (roads or trails/parks in areas with low foot and road traffic congestion) are preferred to discourage attracting crowds.
- If the race is held in a defined outdoor venue (for example, at a track at a public school or in a stadium), spectators are permitted, but the venue must follow the capacity limitations and all other requirements outlined in the Preparedness Plan Requirements Guidance – Recreational Entertainment & Meetings (dli.mn.gov/sites/default/files/pdf/COVID_19_preparedness_plan_requirements_guidelines_recreational_entertainment.pdf).
- Reminder: Any race events (including run/walk races, triathlons, bicycle races, or cross-country skiing races) that are half-marathon length or longer can only be held in venues that have defined perimeters and clear entrance and exit points (i.e., not on public roadways).

✅ **Vendors and attractions.**

- If a race is held at a defined venue (for example, at a track at a public school or in a stadium), vendors and other recreational/entertainment attractions are permitted, but must follow the Recreational Entertainment Guidance.
- If an event is not being held in a defined venue (for example, if a course is located on a public roadway, trail, or other public right of way), vendors or recreational/entertainment attractions
coordinated by the event organizers are not permitted because they encourage the congregation of spectators.

Guidance development

This document was developed in collaboration with stakeholders in Minnesota – in particular, the Minnesota Amateur Sports Commission and the Higher Education Athletic Task Force.

The Minnesota Department of Education continues to partner with the Minnesota State High School League in providing guidance to member schools regarding participation in athletics and activities. School-based activities and athletics are important to our students’ educational experience and more specific guidance will be provided in alignment with the three educational guidance scenarios described in the 2020-2021 Planning Guide for Schools: Health Considerations for Navigating COVID-19 (www.health.state.mn.us/diseases/coronavirus/schools/k12planguide.pdf). This document provides parameters for schools to use in their planning for possible reopening in fall 2020-2021.

Future guidance

We will continue to monitor the trends of COVID-19 and continue to dial up or dial back as needed.

MDH will pay close attention to transmission trends in sports and refine guidance and response recommendations as needed to help prevent the spread of COVID-19.

Sport-specific resources for return to play

Note MDH is not promoting any resources but including links here for your reference.
