STAY SAFE MN

Ways to Find a COVID-19 Vaccine

8/24/2021

COVID-19 vaccine is widely available. There are many options for places to get a vaccine. Here are some different ways to find a COVID-19 vaccine.

Where to look

- **Search for COVID-19 vaccine providers:** Find Vaccine Locations (mn.gov/covid19/vaccine/find-vaccine/locations/index.jsp).
    - **Pharmacies**. Local and national chains are vaccinating people.
    - **Health care systems/clinics**. At many places, you do not need to be a patient to get vaccinated there.
- **Find COVID-19 vaccines near you** on Vaccines.gov. You can sort by vaccine product.
- **Sign up for an appointment at a state community vaccination site or walk in.** Learn more at COVID-19 Community Vaccination Program (mn.gov/covid19/vaccine/find-vaccine/community-vaccination-program/index.jsp).
- **Find clinics through local public health departments** at Minnesota: Find a Vaccination Clinic (prepmod.health.state.mn.us/clinic/search).
- **Watch for community vaccination events.** Local events at schools, churches, and other organizations in your area may offer opportunities to get vaccinated.

Tips for getting a vaccine

- **Check if a site accepts walk-ins.** Many COVID-19 vaccine clinics offer walk-in options.
- **Stay up to date on social media.** Many sites will post when they are hosting vaccination clinics on social media. Apps and social media sites might offer a way to make an appointment.
- **If you need a specific vaccine brand**, call your clinic, pharmacy, health system, or look online to see what brand they have for their vaccination clinics.

Even after vaccination, take steps to prevent the spread of COVID-19 by wearing a mask and staying 6 feet away from others in public spaces, when recommended.
