

# WHO CAN GET THE MONKEYPOX (MPX) VACCINE?

- People who may have been exposed
- Men who have sex with men and trans or non-binary folks
- People who trade sex for money, housing, and other things
- Sexual partners of any of the folks above
- People recommended to get the vaccine by a health care provider

Protect yourself and  
your community —  
Stop the spread of MPX by  
getting vaccinated!

- Ask your health care provider (if you have one)
- Call your local community or sexual health clinic
- Check out the Monkeypox Vaccine Locator map (QR code below or [mpoxvaxmap.org](https://mpoxvaxmap.org))
- Call the Minnesota Department of Health at 651-201-5414
