

Webinar Series: Demystifying HIV/STI Testing, Treatment, and Prevention

Please join Dr. Nick Lehnertz for a three-part webinar series focused on the latest epidemiologic and clinical aspects of HIV and other STIs, including updated syphilis screening guidelines, the latest on doxy PEP, and an overview of the most current options for HIV PEP and PrEP.

The webinar series is geared towards primary care clinicians who may have limited experience with HIV/STI prevention strategies, screening recommendations, and treatment approaches; however, clinicians who are well-versed in HIV/STI care and management may also be interested in attending.

Registration links for the individual sessions are below. Please register for each session you plan to attend.

Part 1: Syphilis and Congenital Syphilis

- Date: Oct. 8, 2025, noon - 1:00 pm
- Registration: [Part 1: Syphilis and Congenital Syphilis](https://events.gcc.teams.microsoft.com/event/e12948c6-4aa2-4796-a6e1-7fa58b8ccee9@eb14b046-24c4-4519-8f26-b89c2159828c)

Dr. Lehnertz is a physician and medical epidemiologist specializing in infectious disease epidemiology, prevention and control at the Minnesota Department of Health. His work includes responding to novel and emerging infectious outbreaks such as SARS-CoV-2 and mpox, creating strategies to reduce risk of acquiring syphilis and HIV, and understanding drivers and barriers to health care utilization, especially among disproportionately impacted populations.

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Minnesota Medical Association and Minnesota
