

Syphilis Learning Series Save the Date

1-3:30 P.M. ON OCTOBER 4, 11, 18, & 25, 2022

Course Description

The free learning series provides participants with training in the most recent advancements in syphilis prevention, screening, and treatment.

Course Objectives

- Understand current epidemiologic trends for syphilis and congenital syphilis in Minnesota.
- Review the ways in which programs at the Minnesota Department of Health collaborate with providers to prevent and address syphilis and congenital syphilis.
- Learn current best practices for screening, diagnosing, and treating syphilis and congenital syphilis.

Intended Audience

This virtual learning series is for medical/clinical personnel who work in settings that identify, screen, test, diagnose, and treat syphilis.

Course Engagement

Attendance of the live sessions is mandatory to receive CME/CNE. Participants in this live online course will interact with faculty and classmates through Q&A and polling. Discussion of sensitive subject matter will occur in this STI focused program.
