

## Vision Screening Skill Assessment: Plus Lens

Purpose: To screen for near vision.

NOTE: This screening procedure should be performed if the child is five years of age or older, passed the distance vision screen with the HOTV/LEA SYMBOLS® or Sloan Letters and does not already wear glasses or contacts.

Name \_\_\_\_\_ Date Trained \_\_\_\_\_

Observed by \_\_\_\_\_ Date Observed \_\_\_\_\_

Equipment Needed	Yes	No	Comments
1. Screener has equipment needed to perform the screening <ul style="list-style-type: none"> <li>▪ Eyeglasses with +2.50 lens</li> <li>▪ Visual acuity chart</li> </ul>			

Procedure (for children 5 years of age and older)	Yes	No	Comments
2. Upon completing the distance visual acuity, child remains on the 10 foot line and places the eyeglasses with +2.50 lenses over eyes without occluding either eye.			
3. Screener asks child to read the line they passed on the eye chart. For children who pass at a different line in each eye, ask them to read the higher of the two lines on the chart.			

Documentation of Screening Procedures	Yes	No	Comments
4. Screener clearly identifies <b>PASS</b> criteria: Child is unable to identify optotypes on the line they passed on the vision chart due to blurring.			
5. Screener clearly identifies <b>REFER</b> criteria: Child is able to identify optotypes on the line they passed on the vision chart.
