

HuBERT Report Name: **Summary Statistics Breastfeeding CLN032**

Report Topics: Breastfeeding, Participation

Frequency: Monthly

Access/Where to find: HuBERT AgencyEOM and StateEOM Infoview sites: Minnesota Reports folder (“SummaryStatisticsReport-Breastfeeding.PDF”)

Description: This report is run during the End of Month (EOM) process. It is a statewide report providing WIC Breastfeeding initiation and duration measures. Totals are accumulated for each Agency and Clinic; it also displays totals for the state. There are three sections to this report: Breastfed Ever, Breastfed Ever & Currently Breastfeeding, and When Breastfeeding Stopped (Infants in Third Month of Life).

Criteria and Filters:

- Fully BF infants <6 months old are included and counted in the clinic in which his/her linked mother received benefits. (This criterion changed in February, 2014.)
- Counts are based on the participation date (Printed First Date to Use). Participants are only counted once per month.
- Participants are not counted if all of their benefits were voided.
- “1/C of WIC ppt>= 3 mo during preg” – a calculation is used to determine that the number of days between the earliest Certification Effective Date for mom’s pregnancy and the infant’s Date of Birth is greater than or equal to 90 days; this requires a link between the records.
- “Unknown” and “Incomplete” are excluded from totals and percentages, but counts are listed on the report for reference.
 - Unknown = if “Unknown” is selected for Ever Breastfed in the Health Information screen or the formula
 - Incomplete = infant or child where there is no selection for Ever Breastfed (Breastfeeding Information section not completed with an Out-of-State Transfer/VOC)

Some possible purposes for this report:

- Review rates and trends regarding breastfeeding initiation and duration, including longer participation in WIC during pregnancy.
- Identify when participants are most likely to stop breastfeeding during the first three months of an infant’s life.
- Plan anticipatory guidance, education and key times for support.
- Plan and share information with breastfeeding coalitions, hospitals, boards, and grant funders to help support breastfeeding.
- Compare agency’s rates to state and national goals.

Output Options: within the AgencyEOM and StateEOM Infoview sites: Minnesota Reports folder

- SummaryStatisticsReport-Breastfeeding.PDF is a lengthy report that displays the totals for all clinics, all local agencies, and the state totals.

Also Compare to HuBERT Report(s): None

Note: Run the Infoview Report “Women with Unlinked or One-Way Linked Infants” for a list of possible corrections to make before this report is run.

BREASTFED EVER
includes infants/
children up to
two years old.

**BREASTFED EVER
& CURRENTLY
BREASTFED**
includes infants
up to 1 year old.

Row Headers:
Yes: infants or
children where
"Yes" was
selected for "Ever
Breastfed"

No: infants or
children where
"No" was
selected for "Ever
Breastfed"

**Unknown if Ever
BF:** infants or
children where
"Unknown" was
selected for "Ever
Breastfed"

Incomplete:
infants/children
where no
selection is made
for "Ever
Breastfed".

State: MINNESOTA
Agency: ### - AGENCY NAME
Clinic: ### - CLINIC NAME

**I/C of WIC ppt >= 3
mo. during preg.** is a
subset of the number
of infants and children
in the **All** column.

Infants in third month of life is the group of Infants
whose birth month is two months prior to the Report
Month. (e.g., A report month of December displays
infants born in October.) The category "Infants in third
month of life" reports on a different group each month.

BREASTFED EVER:

Initiation Rate

Breastfed Ever	Infants & Children < 24 mo. old				Infants in third month of life				State	
	All		I/C of WIC ppt >= 3 mo. during preg.		All		I/C of WIC ppt >= 3 mo. during preg.		I/C < 24 mo. old	
	#	%	#	%	#	%	#	%	#	%
Yes	521	71.86	332	72.49	37	88.10	21	84.00	30093	73.41
No	204	28.14	126	27.51	5	11.90	4	16.00	10898	26.59
Total	725	100.00	458	100.00	42	100.00	25	100.00	40991	100.00
Unknown if Ever BF	10		4		0		0		666	
Incomplete	1		0		0		0		141	

BREASTFED EVER & CURRENTLY BREASTFED:

BREASTFED EVER & CURRENTLY BREASTFED (Duration) is a subset of
the infants/children who have "Yes" selected for "Ever
Breastfed".

Currently Breastfed	Infants & Children < 1 year old				Infants in third month of life				State	
	All		I/C of WIC ppt >= 3 mo. during preg.		All		I/C of WIC ppt >= 3 mo. during preg.		Infants in third month of life	
	#	%	#	%	#	%	#	%	#	%
Yes	289	87.58	177	92.19	33	89.19	20	95.24	1152	70.07
No	41	12.42	15	7.81	4	10.81	1	4.76	492	29.93
Total	330	100.00	192	100.00	37	100.00	21	100.00	1644	100.00
Incomplete	0		0		0		0		0	

This is a breakdown of the **Infants in third month of life** column from the
BREASTFED EVER & CURRENTLY BREASTFED section of this report.

- All infants where **Currently Breastfed = No** in the previous section are counted at the age at which they stopped breastfeeding.
- All infants where **Currently Breastfed = Yes** in the previous section are counted in the **Still BF @ three months** row.

WHEN BREASTFEEDING STOPPED (INFANTS IN THIRD MONTH OF LIFE, EVER BF = YES):

NOTE: The order of the column headers I/C of WIC Ppt >= 3 mo. during preg. and All are reversed in this section of the report.

BF Stopped	I/C of WIC ppt >= 3 mo. during preg.		All		State	
					All	
	#	%	#	%	#	%
<= 1 day	0	0.00	0	0.00	43	2.62
2-3 days	0	0.00	1	2.70	53	3.23
4 days to <= 1 week	0	0.00	0	0.00	72	4.38
2 weeks	>= 8 days and <= 14 days	0	0.00	0	70	4.26
3 weeks	>= 15 days and <= 21 days	0	0.00	0	71	4.32
4-8 weeks	>= 22 days and <= 56 days	1	4.76	3	175	10.65
3 months	>= 57 days	0	0.00	0	7	0.43
Still BF @ three months	Currently Breastfeeding	20	95.24	33	1152	70.12
Total		21	100.00	37	1643	100.00
Incomplete Records		0		0	1	

Row Headers:
Calculated based on the difference between the infant's Date of Birth and the value in the Date Breastfeeding Ended field

Incomplete Records are infants/children who were Ever Breastfed and are currently Non-Breastfeeding and have no value in the "Date Breastfeeding Ended" field.

If no infants meet the criteria in this section of the report, the following displays:

WHEN BREASTFEEDING STOPPED (INFANTS IN THIRD MONTH OF LIFE, EVER BF = YES):

BF Stopped	I/C of WIC ppt >= 3 mo. during preg.		All		State	
					All	
	#	%	#	%	#	%

*** THERE WERE NO BF INFANTS IN THIRD MONTH OF LIFE FOR THIS REPORT MONTH ***
