Global Health Media has developed many short breastfeeding videos. Videos marked “for mothers” were developed for the public. Other breastfeeding videos are intended for health professional training.

Breastfeeding related videos for mothers include:
- Breastfeeding in the first hours.
- How to express breastmilk.
- Is your baby getting enough milk?

For a complete list, see Global Health Media Videos

Global Health Media has translated many, but not all, of their videos. On the main breastfeeding video page use the select language drop down to see all the videos available in that language. Translations are available in:
