DATE: July 8, 2020
TO: WIC Breastfeeding Coordinators and Coordinators
FROM: Marcia McCoy, MIS and Data Unit
SUBJECT: Breastfeeding during COVID-19

A new fact sheet, *Breastfeeding Among Minnesota WIC Participants During COVID-19*, is now available on the WIC webpage [Breastfeeding Reports & Data](https://www.health.state.mn.us/people/wic/localagency/reports/bf/index.html) (<https://www.health.state.mn.us/people/wic/localagency/reports/bf/index.html>) .

Minnesota WIC is tracking breastfeeding rates monthly for our participants to gauge the possible effects of the COVID-19 crisis on breastfeeding, and will update the fact sheet as new data becomes available.
