Objectives

- Collect any comments on ONC’s Information blocking NPRM relating to the PDMP
- Prioritize the priorities; develop some actions

Agenda

1. Roll call/intros
2. Regulatory or legislative updates
3. Update on e-Health Summit session (June 13) http://www.mngts.org/e-health/
4. Collect NPRM thoughts/comments (see excerpt below)
5. Prioritize the priorities (“Act” items on the matrix)
   a. How do we drive adoption of transactions and best practices?
   b. What data do we need to communicate the value?
   c. How do we measure success?
6. Next steps for June 10 meeting

ONC Information Blocking NPRM – PDMP excerpt (FR Page 7464; PDF page 41)

Health IT and Opioid Use Disorder Prevention and Treatment—Request for Information: Emerging Standards and Innovations: Additional Comment Areas

“We further seek comment on effective approaches for the successful dissemination and adoption of standards including the NCPDP SCRIPT 2017071 standard (see section IV.B.2) that can support the exchange of PDMP data for integration into EHRs and also enable further adoption and use of Electronic Prescribing of Controlled Substances (EPCS). Regarding integration of health IT with PDMPs and EPCS, we believe there are real and perceived challenges and opportunities that involve policy and technical components. As we explore these issues in collaboration with industry and stakeholders, we seek comment on the priority challenges and opportunities for these topics and on any technical and policy distinctions, as appropriate.”
