

New Modern Look for Our Modern Users

We have exciting news...our learning system has a new, updated look! Visit the [MDH Learning Center](#).

When you get into the system, you'll notice a handful of changes right off the bat. The left-hand menu is gone, main navigation is done from the top right icons, training can now be displayed as "tiles" or our traditional list view. The new tile view mimics a more Netflix-style layout, plus so much more.

Below is a screenshot of the new search page with numbered callouts which include a brief description of some of the newest and biggest improvements to the system.

Learning Center - New Features

Item	New Feature	Details
1.	Main Navigation Menu	This is now where all the items from the old menu appear. You can navigate to any page from this "hamburger" menu.
2.	Notifications	You'll now be able to see how many new notifications you have at a glance, as well as delete or mark notifications as read.
3.	Global Training Search	A search icon now lives at the top menu so you can quickly search for training by relevant keywords or topics. Enter keyword 'HCH' to see Health Care Homes courses.
4.	Search by Category	You can refine your search results by choosing one of the various course category options available in the drop-down menu. Choose Health Care Access and Quality to see Health Care Homes courses.
5.	Search by Curriculum Type	Looking for videos or a training session? You can filter search results by training type via this drop-down menu.
6.	Additional Filters	You can also filter by a number of additional options such as name, course type, rating, price (if applicable), and more!
