I. Welcome and Introduction

II. Behavioral Health Home (BHH) services overview

III. Panel discussion featuring Western Mental Health Center, Aquí Para Ti, and ComunidadesLatinas Unidas en Servicio.
Learning Objectives

I. Define behavioral health home (BHH) services model standards and guiding principles.

II. Explain how the Ecological Systems Theory framework allows for the BHH services model to operate under a “whole person” philosophy of care

III. Provide examples of how the BHH services model allows for “whole person” care and ensures access to a coordinated delivery of primary care, behavioral health and social services
Six Federally Required Services

1) Comprehensive Care Management
2) Care Coordination
3) Health and Wellness Promotion
4) Comprehensive Transitional Care
5) Individual and Family Support Services
6) Referral to Community and Social Services
Behavioral Health Home Services Guiding Principles

- BHH services are distinguished by the presence of a multi-disciplinary team.
- Providers will deliver BHH services using a strength-based approach.
- BHH services create an opportunity to be person-centered and meet the needs of individuals experiencing serious mental illness and their families.
Providers will deliver BHH services with a person-centered ecological perspective, considering the varying social factors that ultimately impact a person’s health, and will engage and respect the individual and family in their health care and recovery and resiliency.
Our Mission: To advance the capacity of Latino individuals and families to be healthy, prosperous and engaged in their communities.
CLUES Offers a Diverse Range of Programming to the Community

- Health and Family Well-being
- Economic Vitality
- Education
- Cultural and Civic Engagement
CLUES’ Sexual Health Education Program

A multi-generational, community-based approach to teaching healthy sexuality

• Parent workshops
• Teen classes
• Parents and teens talking together
• Referrals and collaboration with community agencies
Mission - To provide trauma-informed care to Latinx adolescents 10-24 and their families through a holistic approach embracing their physical, mental-emotional, social and educational well-being.
Aquí para Tí: Core elements

- Trained trauma-informed adolescent care team
  - Family parallel care
  - Structured approach to screening,
  - Case/care management
  - Dual approach: Intervention-prevention
  - Connecting with community partners
CLUES and Aqui Para Ti

Collaborating to serve families via:

• Workshop series for parents and teens
• Inter-agency referrals
• Serving as program advisors for one another
Patient access to:
• Comprehensive care management
• Care coordination
• Health and wellness promotion
• Comprehensive transitional care
• Individual and family support
• Referral to community and social services

Provider access to:
• Appropriate and faster diagnoses for patients
• External records (School records, truancy, IEP, legal, etc.)
• Better understanding of patients’ holistic status.
• Stronger sense of partnership and support.
• Healthier youth and families.
