2. Demonstrate consultation of at least two provider directories and/or data sources. Provide a description of the provider directories and/or data sources consulted, including a brief explanation of why the sources are believed to be accurate and complete. Examples of acceptable provider directories and data sources include, but are not limited to:

 - i. For example, does the carrier provide transportation services/vouchers, in-home care options, virtual care services, and/or telemedicine services?
 1. If, in its waiver application, a health carrier demonstrates to the commissioner that there are no providers of a specific type or specialty in a county, the commissioner may approve a waiver in which the health carrier is allowed to address network inadequacy in that county by providing for patient access to providers of that type or specialty via telemedicine
 - ii. If telemedicine is used to provide access:
 1. These services must meet the definition of "telemedicine" in Minnesota Statutes [62A.671, subdivision 9](#).
 2. Carrier must describe the extent to which telemedicine services are available
 - a. How many network providers of the impacted provider type have contracts to conduct/provide telemedicine services?
4. Describe how they will assess the availability of providers who begin practice in the service area where the standard cannot currently be met and agree to conduct this assessment quarterly
 - a. Assessment of availability must include consultation of at least two provider directories and/or data sources, as described in item 2, above

Reason Code 2:

Provider does not meet carrier's credentialing requirements.

Carriers must:

1. Cite the reason(s) provider does not meet credentialing requirements
2. For Primary Care, Pediatric Services (Primary Care), General Hospital, and Mental Health provider types

For example, does the carrier allow enrollees to receive out-of-network care at in-network rates, provide transportation services/vouchers, in-home care options, virtual care services, and/or telemedicine services?
 - i. If telemedicine is used to provide access:
 1. These services must meet the definition of "telemedicine" in Minnesota Statutes [62A.671, subdivision 9](#).
 2. Carrier must describe the extent to which telemedicine services are available
 - a. How many network providers of the impacted provider type have contracts to conduct/provide telemedicine services?

Reason Code 3:

Carrier has made a good faith effort to contract with provider and provider has refused to accept a contract.

Carriers must:

1. Cite the reason(s) provider state(s) for refusing contract(s)
2. For Primary Care, Pediatric Services (Primary Care), General Hospital and Mental Health provider types

2. State what, if any, steps are taken to inform enrollees of restricted access
3. State the total number of estimated enrollees in the network as of the submission date of the waiver
4. State why the geographic access standards cannot be met. Explain why full geographic access is not possible with this network design
5. State how access will be provided for this provider type for the enrollees of the affected county. For example, does the carrier allow enrollees to receive out-of-network care at in-network rates, provide transportation services/vouchers, in-home care options, virtual care services, and/or telemedicine services?
