

Greetings,

This communication is to ask for your help in confirming the **Primary Infection Prevention and Control Contact** for your facility.

Please help us by filling out your facility contact information and sending it to Health.icar@state.mn.us

Are you the Primary Infection Prevention and Control Contact for your facility?

If “Yes”, please reply “Yes” to this message.

If “No”, please reply with the following information:

- 1) The Primary Infection Prevention and Control Contact for my facility is:
 - a. Name:
 - b. Email address:
 - c. Phone number:

- 2) My position or role is:

Note: If you would prefer to respond to us by phone, please call 651-201-5414 and ask to speak with someone in the Health Care-associated Infections and Antimicrobial Resistance (HAI/AR) Unit.

Background: The Minnesota Department of Health (MDH) Health Care-associated Infections and Antimicrobial Resistance (HAI/AR) staff are working on a new national effort to develop a compendium of contacts from all types of health care settings who need to receive important infectious disease alerts and prevention messages. This email is **the first of two messages** requesting your help to develop the long-term care facility portion of the comprehensive Minnesota infection control contact list.

Thank you for your time in responding to us — we appreciate it! This important effort will strengthen and improve public health and health care partnerships throughout the state of Minnesota.

Sincerely,

The HAI/AR Staff

Infectious Disease Epidemiology, Prevention and Control Division

Minnesota Department of Health
