Funds will be awarded each year proportionally among all eligible programs, based on the total number of uninsured patients under the age of 21 served.

1.3 Funding and Project Dates

Funding

The Legislature has appropriated up to $393,750 in Fiscal Year 2020. Funding will be allocated by formula, among eligible applicants.

Eligible mental health organizations will receive a percentage of the available funding based on a simple ratio of the number of individual uninsured patients under the age of 21 served by each provider as a portion of the total number of individual uninsured patients under the age of 21 served by all eligible providers.

As determined by statute, no single eligible provider will receive less than 2 percent or more than 30 percent of the total appropriation for this grant.

When the Legislature created this grant program, the purpose was to ensure access to health care services for uninsured populations, especially children.

Each grantee must formally enter into a grant agreement. The grant agreement will address the conditions of the award, including implementation for the project. Once the grant agreement is signed, the grantee is expected to read and comply with all conditions of the grant agreement.

No work on grant activities can begin until a fully executed grant agreement is in place.

The funded applicant will be legally responsible for assuring implementation of the work plan and compliance with all applicable state requirements including worker’s compensation insurance, nondiscrimination, data privacy, budget compliance, and reporting.

**Accountability and Reporting Requirements**

It is the policy of the State of Minnesota to monitor progress on state grants by requiring grantees to submit written progress reports with each invoice until all grant funds have been expended and all of the terms in the grant agreement have been met.

The reporting and invoice schedule will be:  

<table>
<thead>
<tr>
<th>Due by:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>January 4, 2020-June 30, 2020</td>
<td>July 15, 2020</td>
</tr>
<tr>
<td>July, 1, 2020-December 31, 2020</td>

**Grant Monitoring**

The monitoring schedule will be in keeping with Minn. Stat. §16B.97 and Policy on Grant Monitoring guidelines.

**Grant Payments**

Per [State Policy on Grant Payments](#), reimbursement is the method for making grant payments. All grantee requests for reimbursement must correspond to the approved grant budget. The State shall review each request for reimbursement against the approved grant budget, grant expenditures to-date and the latest grant progress report before approving payment. Grant payments shall not be made on grants with past due progress reports unless MDH has given the grantee a written extension.

### 2.4 Grant Provisions

**Conflicts of Interest**

MDH will take steps to prevent individual and organizational conflicts of interest, both in reference to applicants and reviewers per Minn. Stat.§16B.98 and [Conflict of Interest Policy for State Grant-Making](#).

Applicants must provide a list of all entities with which it has relationships that create, or appear to create, a conflict of interest with the work contemplated by this RFP. The list must provide the name of the entity, the relationship, and a discussion of the conflict. Submit the list
as an attachment to the application. If an applicant does not submit a list of conflicts of interest, MDH will assume that no conflicts of interest exist for that applicant.

Organizational conflicts of interest occur when:

- a grantee or applicant is unable or potentially unable to render impartial assistance or advice to the Department due to competing duties or loyalties
- a grantee’s or applicant’s objectivity in carrying out the grant is or might be otherwise impaired due to competing duties or loyalties

In cases where a conflict of interest is suspected, disclosed, or discovered, the applicants or grantees will be notified and actions may be pursued, including but not limited to disqualification from eligibility for the grant award or termination of the grant agreement.

Public Data and Trade Secret Materials

All applications submitted in response to this RFP will become property of the State. In accordance with Minnesota Statute Section 13.599, all applications and their contents are private or nonpublic until the applications are opened.

Once the applications are opened, the name and address of each applicant and the amount requested is public. All other data in an application is private or nonpublic data until completion of the evaluation process, which is defined by statute as when MDH has completed negotiating the grant agreement with the selected applicant.

After MDH has completed the evaluation process, all remaining data in the applications is public with the exception of trade secret data as defined and classified in Minn. Stat. § 13.37, Subd. 1(b). A statement by an applicant that the application is copyrighted or otherwise protected does not prevent public access to the application or its contents. (Minn. Stat. § 13.599, subd. 3(a)).

If an applicant submits any information in an application that it believes to be trade secret information, as defined by Minnesota Statute Section 13.37, the applicant must:

- Clearly mark all trade secret materials in its application at the time it is submitted,
- Include a statement attached to its application justifying the trade secret designation for each item, and
- Defend any action seeking release of the materials it believes to be trade secret, and indemnify and hold harmless MDH and the State of Minnesota, its agents and employees, from any judgments or damages awarded against the State in favor of the party requesting the materials, and any and all costs connected with that defense.
- This indemnification survives MDH’s award of a grant agreement. In submitting an application in response to this RFP, the applicant agrees that this indemnification survives as long as the trade secret materials are in possession of MDH. The State will not consider the prices submitted by the responder to be proprietary or trade secret materials.

MDH reserves the right to reject a claim that any particular information in an application is trade secret information if it determines the applicant has not met the burden of establishing that the information constitutes a trade secret. MDH will not consider the budgets submitted
by applicants to be proprietary or trade secret materials. Use of generic trade secret language encompassing substantial portions of the application or simple assertions of trade secret without substantial explanation of the basis for that designation will be insufficient to warrant a trade secret designation.

If a grant is awarded to an applicant, MDH may use or disclose the trade secret data to the extent provided by law. Any decision by the State to disclose information determined to be trade secret information will be made consistent with the Minnesota Government Data Practices Act (Minnesota Statutes chapter 13) and other relevant laws and regulations.

If certain information is found to constitute trade secret information, the remainder of the application will become public; in the event a data request is received for application information, only the trade secret data will be removed and remain nonpublic.

**Audits**

Per Minn. Stat. §16B.98 Subdivision 8, the grantee’s books, records, documents, and accounting procedures and practices of the grantee or other party that are relevant to the grant or transaction are subject to examination by the granting agency and either the legislative auditor or the state auditor, as appropriate. This requirement will last for a minimum of six years from the grant agreement end date, receipt, and approval of all final reports, or the required period of time to satisfy all state and program retention requirements, whichever is later.

**Affirmative Action and Non-Discrimination Requirements for all Grantees**

The grantee agrees not to discriminate against any employee or applicant for employment because of race, color, creed, religion, national origin, sex, marital status, status in regard to public assistance, membership or activity in a local commission, disability, sexual orientation, or age in regard to any position for which the employee or applicant for employment is qualified. Minn. Stat. §363A.02. The grantee agrees to take affirmative steps to employ, advance in employment, upgrade, train, and recruit minority persons, women, and persons with disabilities.

The grantee must not discriminate against any employee or applicant for employment because of physical or mental disability in regard to any position for which the employee or applicant for employment is qualified. The grantee agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship. Minnesota Rules, part 5000.3500

The grantee agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the Minnesota Human Rights Act.
2.5 Review and Selection Process

Selection Process

Grant funding will be allocated by formula, determined by statute, as follows:

Eligible mental health organizations who submit a complete application will receive a percentage of the available funding based on a simple ratio of the number of individual uninsured patients under the age of 21 served by each provider, as a portion of the total number of individual uninsured patients under the age of 21 patients served by all eligible providers.

No single eligible provider will receive less than 2 percent or more than 30 percent of the total appropriation for this grant.

MDH will review all applications for completeness and eligibility, and is responsible for award decisions. The award decisions of MDH are final and not subject to appeal. Additionally:

- MDH reserves the right to withhold the distribution of funds in cases where proposals submitted do not meet the necessary criteria.
- The RFP does not obligate MDH to award a grant agreement or complete the project, and MDH reserves the right to cancel this RFP if it is considered to be in its best interest.
- MDH reserves the right to waive minor irregularities or request additional information to further clarify or validate information submitted in the application, provided the application, as submitted, substantially complies with the requirements of this RFP. There is, however, no guarantee MDH will look for information or clarification outside of the submitted written application. Therefore, it is important that all applicants ensure that all sections of their application are complete to avoid the possibility of failing an evaluation phase or having their score reduced for lack of information.

Grantee Past Performance and Due Diligence Review Process

- It is the policy of the State of Minnesota to consider a grant applicant's past performance before awarding subsequent grants to them.
- State policy requires states to conduct a financial review prior to a grant award made of $25,000 and higher to a nonprofit organization, in order to comply with Policy on the Financial Review of Nongovernmental Organizations.
