

Rural Health Transformation Program Funding

RURAL AMBULANCE TREATMENT IN PLACE

Organization	City	Amount	Purpose
Minnesota Office of EMS	Saint Paul	\$281,000: OEMS Staff Time \$9,218,109: Grant Funds to EMS Agencies	Pilot test an ambulance service treatment in place project. The OEMS will define treatment in place and using this definition provide funds to rural ambulance services that opt into the project. Treatment in place is treatment that occurs when an ambulance service responds to a 911 call but does not transport the caller to the hospital. These calls are not reimbursable by insurance. OEMS will further refine this model and under the direction of MDH, implement this pilot model to test the impact of these funds for sustainability of rural ambulance services.
