

Trauma Program 101

Bridge Seminar for Level 3 Trauma Hospitals

New to the job?
Don't know where to start?
Need a refresher?
Worried about your upcoming site visit?
Wondering if you're doing everything right?
Then register for this class!

Trauma program medical directors, managers, coordinators, and administrators at a Level 3 Trauma Hospitals, this class is for you! In this seminar tailored for Minnesota's Level 3 Trauma Hospitals will build upon the principles discussed in *Trauma Program 101: Basic Training for Level 4 Trauma Hospitals* but it will specifically address criteria requirements and performance improvement strategies unique to Level 3 Trauma Hospitals. Attendance at [Trauma Program 101: Basic Training for Level 4 Trauma Hospitals \(PDF\)](#) in Morton, MN on April 19 is strongly encouraged and necessary for a comprehensive understanding of the topics covered in this seminar!

Objectives

- Understand the trauma system designation criteria requirements for Level 3 Trauma Hospitals and how to implement them in your hospital
- Learn how to prepare for a site visit
- Understand the performance improvement requirements for Level 3 Trauma Hospitals
- Establish and organize a successful trauma performance improvement process
- Leverage the expertise of the trauma case review committee to improve clinical practice
- Maintain concise and clear records of performance improvement activities
