Midwest Retention Toolkit

Created by: The National Rural Health Resource Center and the National Rural Recruitment and Retention Network under contracts from the Indiana State Department of Health; Minnesota Department of Health, Office of Rural Health and Primary Care; and Wisconsin Department of Health Services, Division of Public Health.

Indiana, Minnesota, Wisconsin
Acknowledgements
Overall planning for the Retention Toolkit and State Resources: Indiana State Department of Health; Minnesota Department of Health, Office of Rural Health and Primary Care; Wisconsin Department of Health Services, Primary Care Office; Wisconsin Primary Health Care Association; the National Rural Recruitment and Retention Network (3RNet) and The National Rural Health Resource Center.

The Michigan Center for Rural Health, Recruitment and Retention Services is recognized for the many retention tools contributed to the Midwest Retention Toolkit as well as all 3RNet members and Primary Care Offices for creating the strong foundation of rural and underserved recruitment and retention resources.

Funding was provided by the Indiana State Department of Health; Minnesota Department of Health, Office of Rural Health and Primary Care; and Wisconsin Department of Health Services, Division of Public Health through American Recovery and Reinvestment Act grants from the Department of Health and Human Services, Health Resources and Services Administration, National Health Service Corps (CFDA 93.414).

The Midwest National Health Service Corps Retention Toolkit is not intended for commercial use. Permission granted to use within health care facilities for development of individual retention plans.

Introduction

The National Health Service Corps (NHSC) program facilitates connections between primary, dental, and psychiatric care providers and communities in need by supporting providers who choose to work in underserved areas of the US. In 2011, the NHSC expanded their Scholarship and Loan Repayment programs to include more than 10,000 clinicians providing care to the nation’s underserved communities. The NHSC also provided funding to the State Primary Care Offices (PCOs) in Indiana, Minnesota and Wisconsin along with 33 other states to implement two-year projects to support and track the retention of NHSC health care providers in underserved communities. In the Midwest, Indiana, Minnesota and Wisconsin initiated a project to support the retention of NHSC providers in underserved areas by developing a Retention Toolkit of resources to help NHSC sites with provider retention. The NHSC program supports primary care and psychiatric physicians, physician assistants, advanced practice nurses, mental health providers, dentists and dental hygienists. Similar to a provider’s medical bag, the Retention Toolkit has a variety of instruments or tools for use at each stage of a health care organization’s retention plan. This toolkit includes worksheets, sample surveys, agendas, and plans that may be utilized with all of these types of providers although many of the samples are based on physician retention. The tools ensure they are properly orientated to the practice, integrated into the community along with their family and recognized for their service and impact on local health care. The toolkit also features a national and state resource section with websites and contact information.
Retention Issues

Immense resources are invested by health care organizations in underserved areas to recruit and train health care providers; therefore it is critical to retain those providers and protect that investment, both from a business and community perspective. For a community, health care provider turnover is disruptive to health care delivery, continuity of care and patient loyalty. The estimated costs of replacing one primary care physician can result in $20,000 to $30,000 in recruitment and a loss of $300,000 to $400,000 in annual gross billings plus additional costs related to ancillary employment within the community. After a health care provider has been recruited, it is critical to understand the challenges they face in providing health care in the community and what can be done to support their efforts. Long term retention begins with recruitment; matching a candidate’s preferences to the attributes of your community will go a long way in ensuring a successful, long term solution to the health care needs of your community. Without such a foundation, all retention building post-hire will have little impact on retaining a provider who does not fit your community.

Midwest NHSC Health Care Facility Interviews

To identify retention issues and best practices among NHSC sites, the National Rural Health Resource Center (The Center) conducted a focus group by phone with 10 site administrators from the three states representing Federally Qualified Health Centers, Rural Health Clinics, community mental health centers and hospital affiliated primary care clinics from rural and urban areas. Sites indicated the following retention challenges: lack of individual clinic staff responsibility for retention; limited salary and benefit resources; retaining providers after completion of their loan repayment obligation; and limited spouse/partner employment opportunities. Some successful retention strategies included affiliations with local Universities to offer continuing education and professional networking, creating retention committees, conducting satisfaction surveys, and provider recognition efforts, including a “Provider of the Year” award selected by peers.

Midwest NHSC Health Care Provider Retention Survey

To identify retention factors which were favorable to providers, the Center surveyed 123 health care providers from IN, MN and WI, with a 48% overall response rate. One third of the respondents were mental health providers, 26% advanced practice nurses, 16% dentists, 12% physicians, 9% physician assistants and 2% dental hygienists. The respondents were evenly split between rural (52%) and urban (48%) communities with over 20,000 in population. Fifty-five percent had been in the practice two to three years and 38% over four years. The majority planned to stay in the practice following completion of their NHSC obligation, although 26% were not sure they would stay at the site. The most important retention factors cited included:

- Professional relationships with partners and colleagues
- Workload/call schedule
- Compensation/benefits
- Community/lifestyle

The following bullets highlight two particular instances where we discovered clinic retention efforts that significantly misaligned with provider preferences, examples of how important it is to gain provider

feedback on what provider’s see as important so as to design incentive offerings that can best address those desires:

- The financial incentives most frequently offered by sites beyond the NHSC loan repayment included: continuing education reimbursement, increasing paid time off and retirement. However, the financial incentives reported to be the most important to providers were increased compensation and medical insurance.
- The providers ranked the recognition activities, community integration and participation in clinic/hospital decision making as most important; however, less than one-third of the sites offered these activities. Non-financial strategies typically offered by NHSC sites were provider/satisfaction feedback surveys, teaching opportunities, and participation in clinic/hospital decision making.

Health care providers were asked what else they felt was important that would help encourage them to stay at their current practice site. Survey comments included:

- Lower case loads or more staff to lower case loads. The work load and expectations tend to causes high burnout.
- Better integration into the community as an individual provider and a practice.
- I love my job and I couldn’t imagine working anywhere else! The people I work with are great and the patients make coming to work worthwhile.

Other Retention and Workforce Reports

The South Dakota Department of Health’s Office of Rural Health conducted a Recruitment and Retention Survey in May 2012. Health care providers ranked incentives and reasons which they considered to be most important in their decision to remain practicing in their community. Competitive salary was rated as the most important issue in the retention of providers. Family oriented setting; educational facilities for children; incentives (bonuses, health insurance and sick leave); and employment opportunities for spouse/partners also ranked very high.2

A workforce study conducted among social workers in North Dakota found that 47% indicated that “burnout/stress” was the least enjoyable aspect of their job and “not being able to pay a competitive salary” was seen as the most serious problem related to recruitment and retention of social work staff. 3

Top 10 Retention Factors

As noted in the survey, focus groups and previous studies, a number of factors impact retention. A comprehensive retention plan should address all of the following factors (not ranked) as much as feasible for the site and community:

- Availability of relief coverage for vacations, holidays and family emergencies.
- Quality of public elementary and secondary schools.
- Compatibility with others in health care community.
- Availability of quality housing.
- Availability of practice partners and consulting specialists.

---

2 South Dakota Department of Health Office of Rural Health Recruitment and Retention Study. May 2012.
Retention Plan
The core component of health care provider retention is to maintain regular contact with new providers and their families to stay informed of their community and workplace adjustment, and to mitigate any potential problems that could impact retention. Retention begins as soon as a provider signs an agreement or accepts an employment offer and continues throughout the length of their practice. A formal retention plan including scheduled professional and community interactions and staff accountable for those tasks is recommended. One person should be designated to coordinate or oversee the plan; however, a committee approach to implementation can be considered. The key components of the Retention Plan should include:

1. Goals, timeline and person accountable
2. Committee or those part of the plan
3. Resources (materials, community and health care contacts, and budget)
4. Elements of Retention
5. Evaluation (outcome measures)

Retention Plan Samples
(Sample documents are located at the end of the document)

1. **Michigan Physician Retention Plan**
   An introduction to retention and a plan outlined into 3 steps (3-page Word Doc)

2. **Virginia Department of Health Retention Plan**
   An action plan with steps (1-page Word Doc)

3. **Quad-state Partnership Basic Three-Year Retention Plan**
   Outline of retention plan steps by year (1-page Doc)

Retention Elements
Your retention efforts should begin at the time of recruitment. Ensuring a good match and establishing open communication between the facility and provider through the employment, credentialing and relocation process will build a strong foundation.

Orientation
Once the new health care provider begins practice in your community, you need to implement a variety of strategies that accomplish the following objectives:

- Welcoming and orienting the new provider and spouse/partner to the health care community
• Welcoming and fully orienting the provider and family to the community and region
• Arranging opportunities for the provider and family to “check-in”, provide feedback and ask questions
• Matching a mentor or “buddy” to the provider for the first year
• Addressing concerns or issues that may contribute to the provider or family leaving the practice and community
• Recognizing the provider for service and special accomplishments
• Satisfying compensation, education and benefit needs to the extent possible

Orientation/Onboarding Samples

1. Michigan Center for Rural Health (3 Steps)
   New Provider Orientation Checklist Step 1. Detailed list of items to prepare provider for practice with timelines. (5-page Word Doc)
   New Provider Orientation Checklist Step 2. Detailed list of items to prepare provider for practice with timelines. (5-page Word Doc)
   New Provider Orientation Checklist Step 3. Detailed list of items for retention over 3 years with timelines. (5-page Word Doc)

2. National Rural Health Resource Center Orientation Check-Off List
   Detailed list of orientation items and outline (2-Page Word Doc)

3. National Rural Health Resource Center Orientation and Retention Overview
   Review of retention issues and solutions with orientation outline. (31 slide pdf)

Practice Feedback Samples
Using a practice feedback process to check on the retention status of the health care providers in your community is important to conduct annually in terms of perceptions of job satisfaction. This type of feedback is conducted one on one between the retention committee lead and the provider.

   Assessment questions for providers (2-page Word doc)

Provider Satisfaction Surveys
Provider satisfaction surveys are excellent tools to help build the communication process between employer and employee and assess potential retention issues regarding the understanding of the mission of the organization, benefits, compensation and technology. Satisfaction surveys are generally anonymous and best if conducted by a third or neutral party. It is imperative that if the surveys are conducted that the cumulative results are shared with leaders in the organization as well as the providers and that issues are addressed.
Provider Satisfaction Survey Samples
Some samples are physician-based but could be modified for other health care providers.

1. Michigan Center for Rural Health, Physician Satisfaction Questionnaire
   Introduction to survey and survey tool (3-page Word Doc)

2. Quad-state Partnership Sample Clinician Surveys
   Provider Satisfaction Surveys (3-page Word Doc)

3. Mountain States Group Physician Feedback Template
   Physician Satisfaction Survey template (3-page Word Doc)

Recognition Activities
Recognition of all employees’ service is important, and it is no different with providers. Practicing in rural and underserved communities is more challenging for providers as it generally means more frequent time spent on-call, larger caseloads, and patients with economic barriers including lack of insurance and transportation. Below are some examples of the types of recognition activities to include in the retention plan and they should occur throughout the year. The following events or accomplishments could be recognized through press releases, plaques, facility website, staff and/or board meetings and organizational newsletters.

- Years of service
- Practice research, presentations, publications
- Patient satisfaction survey results or testimonials
- Achievement of Meaningful Use of electronic health records
- Hospital or community board or committee service (i.e. EMS Medical Director, Public Health Board, Medical Examiner, Sports Team Health Care Provider, Quality Team)
- Teaching and precepting students for local high schools and state colleges, universities, and Area Health Education Centers
- Board Specialty Certification renewal
- National Nurse, Mental Health Provider, Dental Day
- Remember to recognize all employees, not just physicians

Recognition Activity Samples

1. Marshfield Clinic Shining Star Program
   Recognition of health care provider with a philanthropic gift to the facility

Mentor Programs
A mentor program or “buddy system” is a formal process to match a peer provider or administrative leader to the new provider for the first year of practice. The mentor or buddy is advised to meet monthly with the new provider for a meal, a break or recreationally to discuss retention factors, obtain feedback and help the retention coordinator or committee follow up on issues. The topics of discussion may include:

- Acceptance to the practice and community
- Spouse/partner and family satisfaction with the community
• Quality of work environment (practice size, electronic health record, referrals)
• Ability to pursue continuing education
• Satisfaction with personal and professional support and time schedules

Mentor Program Samples

1. Michigan Center for Rural Health, Mentor Program Outline
   Outline for provider and social mentor program (2-page Word Doc)

Other Retention Tools

If a health care provider leaves your community, whether it is because of the end of an obligation for loan repayment retirement or some other reason, take the opportunity to learn something from the departure. An exit interview may help you determine the reasons behind the provider’s decision to leave, gain their perspective on the practice or community, and learn information that they may have been uncomfortable sharing with the organization while employed.

1. Quad-states Partnership, Sample Exit Interview Form
   Questionnaire for health care provider employment exit interview (1-page Word Doc)

2. Michigan Center for Rural Health, Physician Exit Interview
   Exit survey form (2-page Word Doc)

Financial Retention Samples

Some health care sites offer financial incentives for retention for years of service (e.g., year-end retention bonus). Health care facilities should develop these arrangements and written agreements with legal counsel. Recruitment expenses such as moving or board exams covered by the facility should not be tied to an obligation if the provider is applying for loan repayment with a service obligation.

1. Michigan Center for Rural Health, Promissory Note (2-page Word Doc)

Compensation is a critical retention factor as noted in the Midwest Health Care Provider Retention Survey and other surveys of health care providers. Health care provider compensation can be impacted by the facilities various relationships and contracts related to service reimbursement, including cost-based for Critical Access Hospital and Community Health Center designations, Medicare primary care bonuses for underserved areas in addition to new methods such as Accountable Care Organization and Medical/Health Care Homes. The important item to consider is that health care providers will compare their salaries by state or nationally, therefore sites should be aware of what the competition is offering your providers. In addition to national organizational surveys, contact your state member of the National Rural Recruitment Retention Network or State Office of Rural Health to see if the organization conducts and offers a salary survey free or for a fee.

Please be advised that National Health Service Corps providers may only serve one obligation at a time and providers are limited to one state or federal loan repayment program per year. Additional years of NHSC
Loan Repayment may be applied for on a year to year basis for up to a total of 6 years of service. Providers must apply 90 days before the contract end date for each subsequent year. After a provider has exhausted loan repayment opportunities through NHSC he or she could then participate in a state loan repayment program or employer-based loan repayment option.

Retention Plan Samples

Michigan Physician Retention Plan

Introduction

The key to physician retention is to maintain regular contact with physicians and their families to stay abreast of how they are adjusting, and to anticipate any problems that may develop. The most critical element in any retention plan is a mechanism to “Check In” on the physician’s expectations. Utilize regularly scheduled professional and social interactions to measure the effectiveness of the retention effort.

In the 2009 Retention Study; Administrators, Practice Managers, and Recruiters stated that an effective retention plan must identify one person to coordinate the process. In this tool that individual is referred to as Physician Services.

Recruiting cannot be considered completely successful until the physician is on staff and productive to the point of providing a service to the community and producing enough revenue to support the new practice. Therefore, the retention function should ensure that the physician and his or her family are successfully acclimated to their new location.

Retention efforts will not be wasted because it is far less costly to retain one promising provider than to recruit another. Estimated costs of replacing one primary care physician can result in $20,000 to $30,000 in recruitment, loss of $300,000 to $400,000 in annual gross billings plus additional costs related to ancillary employment within the community.

Physician Retention is a process:

- Strategic planning tells the organization where they are going and how they will get there.
- A provider demand assessment should review efficiency issues, patient volumes and types of patients, market share, and determine the type of provider who will fit that need (associate staff or medical staff).
- The recruitment plan includes sourcing, practice description, criteria for hire, and “fit”.
- Interviewing and evaluation process should be defined as part of the planning. Keep the surprises to a minimum (any on-going issues will rise to the top during recruitment).
- Hiring should move the new physician smoothly into relocation and orientation.
- Orientation is step one in developing a retention plan that is part of a total process, which includes a feedback loop (exit interviews, succession planning and the strategic plan).
- Exit interviews should be held with all physicians who voluntarily leave the organization to determine correction points in strategic plan.
In the 2009 Retention Study, physicians indicated that professional satisfaction was critical to retention. The orientation template is a step-by-step process designed to efficiently and effectively introduce the physician into your community and health system. The three-year Physician Retention Plan provided for this study is a template; it is intended to allow for the unique personality of each community and health care facility. The model is provided in Word format, which will allow the retention manager, the ability to refine as necessary.

The model is not intended to be “one size fits all.” It should be modified to the size and character of your facility. Is the new physician employed by the hospital? Is he/she a Primary Care Provider or Sub-Specialist? Is the practice an independently owned certified Rural Health Clinic or a Federally Qualified Health Center? The action steps were developed after reviewing several Orientation Plans from health care centers in Michigan and across the United States.

The period between the signing of the contract and actual arrival in the community may be several months. It is the moment when the Retention Plan is crucial. “First Impressions” mean a lot. Maintaining communication and responding to questions or requests for assistance in a timely fashion builds confidence in the effectiveness and efficiency of the hiring organization. Identifying the relocation team (realtor and mover) is essential. The relocation team can also be a key conduit of information between the organization and the family.

**Step One** begins with the signed employment agreement.

- Keep in contact after contract is signed; communicate often.
- Ensure licensure and credentialing process is progressing.
- Communicate with realtor on relocation.
- Plan orientation sessions: Community, practice site, hospital. Send to physician.
- Maintain routine communication.
- Ensure the physician’s office and exam rooms are ready.
- Obtain office space and complete necessary renovations.
- Plan social events that help ease family members into the community.

**Step Two** begins the first day in the community.

- Provide a detailed orientation schedule for first two weeks prior to relocation.
- Welcome the physician and their family within the first week of relocation.
- “Welcome” basket sent to the home on the new physician’s first day of work.
• Include meeting with hospital administration (if applicable).

• Hospital tour (include relevant department directors).

• Clinic tour (lunch with staff).

• Clinic orientation involves the new physician with issues regarding equipment, office space scheduling, support staff, business cards, etc.

• Physician mentor introduced (if applicable).

• Contact the spouse and family to see how they are adjusting to the community and to integrate the social mentor (if applicable).

• Marketing sends announcement introducing the new physician to the clinic and system.

**Step Three** involves the first six months, first year, second year, and third year.

• Monthly meetings with identified Hospital Administrators, practice managers, and mentor as identified in plan. Develop and offer feedback on practice development and discuss problems or any other topics relevant to the situation.

• Monthly meetings with identified VPs, practice manager and mentor as identified in plan. Develop and offer feedback on practice development and discuss problems or any other topics relevant to their situation.

• Marketing of practice or outreach needs to be incorporated into the process.

• As information becomes available, track patient volume, and revenue and expenses. After three months schedule quarterly meetings for the remainder of the first year (15-minute meetings).

• Recruiter meets with physician after two months to see if expectations have met reality.

The retention process does not end after three years. It is a continuous activity where the facility “Checks in” and asks the question, “How are we doing?”

Quad-state Partnership Basic Three-Year Retention Plan

Sample retention plan

- Train the staff and board for their respective roles in the recruitment and retention process:
- Improve recruitment skills; identify roles for successful retention.
- Team and organization development.
- Identify key retention strategies; these can be specific to your area or region, or can be generalized, but have readily available for reference.
- Be supportive and responsive to provider needs:
  - Provider-oriented efforts, including: medical director development and mentoring programs;
  - Provisions for continuing medical education, including cultural competencies;
  - Management of information systems with links for providers.
  - Clinical systems development.
- Provider — organization relationships: board, administrator, local, state and federal partners.
- Promote development of personal and organizational issues.
- Arrange for teaching appointments, research opportunities, if requested.
- Promote local, state and national involvement in primary-care issues.
- Improve or upgrade financial packages offered, as feasible:
  - Analyze competitiveness of position.
  - Assure competitive compensation package, including:
    - Salary
    - Benefits
    - Incentives
    - Time off
  - Articulate that an improved plan exists.
- Promote site and provider, help build strong patient base.
Basic three-year retention plan

Initial activities:
• Assistance with moving and initial adjustment.
• Welcoming receptions, including medical and office staff.
• Hospital orientation, if appropriate.
• Practice start-up activities.
• Practice marketing.
• Social activities.
• Adjustment for physician, and family — utilize a “buddy” system, mentor.

Year one:
• Lunch or dinner meeting with administration (quarterly).
• Meeting with physician liaison to cover business aspects (monthly).
• Other practice assistance, staff training (quarterly).
• Spouse visits or calls (monthly).
• Social activities (monthly).

Years two and three:
• Meeting with top administration (semi-annually).
• Meeting with physician liaison (bimonthly).
• Practice business assistance (quarterly).
• Spouse visits or calls (quarterly).
• Social activities (quarterly).

Successful recruit = candidate stays at least three years with an organization.
Transition and activities to new environment can promote good relations for all employees.
Be flexible, and adjust plan as needed.

(General Outline Based on Physician Recruitment & Retention, Practical Techniques for Exceptional Results, Roger Bonds & Kimberly Pulliam, AHP, Inc., 1991.)
Sample orientation plan for new clinicians

It is important that the new provider feels at home at the center and that all pertinent information is at his or her disposal. Here are some tips for orienting the new provider to the center.

• Give the provider a formal tour of facilities and staff introductions, including time to meet with ancillary and support staff and board of directors.
• Provide information regarding the practice and its policies, including: liability issues, technical assistance and support services available, practice manual and care plan, appointment system and scheduling; call schedule, clinical duties, mid-level supervision, continuing education policy, quality assurance program and expectations, mentoring and precepting opportunities and committee structures.
• Review practice procedures, including patient record and billing systems, patient demographic information, key elements to the practice dynamics.
• Introduce key professional colleagues and consultants.
• Outline hospital and referral relationships, emergency procedures, practice protocols for referrals, partner organizations and agencies introduced.
• Give a detailed explanation of benefits (for example: health, life insurance, disability, professional allowances, continuing medical education, vacation), employee policy and procedure manual, employee services.
• Discuss routine paperwork, including licensure, Drug Enforcement Agency certificate, credentialing checklists (should be credentialed prior to start, but review status).
• Provide and go over policies for use of cell phone and pager, review the call schedule and expectations of schedule, and availability for administrative duties.
• Review marketing plans and procedures (for example, practice open house welcome, newspaper ad or article).
• Ask about personal and professional needs and implement a plan for increased responsibility with time, transition period, expectations.
• Document the orientation process in new employee’s personnel file.

CLINIC LOCATIONS:   A       B       C       D       F
(Check Primary Location)

PHYSICIAN SERVICES

First Three Months: Monthly meetings with hospital CEO (or relevant administrator) and the new physician to get feedback on practice development and discuss problems or any other topics relevant to their situation. To provide feedback “interventions” over a period of time, foster on-going communication & to ensure that the new physician feels valued to the group & community (by giving positive feedback from patients, other physicians, and community members, etc.). These meetings can build goodwill between the new physician and administration. As information becomes available, track patient volume, revenue and expenses.

After three months: Quarterly meetings for the remainder of the first year. (15 minute meetings.)

National Rural Health Resource Center Orientation and Retention Overview

Orientation and Retention
Rural Health Resource Center
Sally Buck
November 2005

Choosing a Practice
- 79% Geographic location/lifestyle
- 58% Good financial package
- 49% Adequate call coverage
- 2% Loan forgiveness

Rural Challenges
- Geographic isolation
- Perception of limited cultural/social activities
- Higher overhead costs; lower volume
- Limited educational curriculum choices
- Limited employment for spouse or significant other
- Longer hours/limited backup
- Availability of quality housing
- Shortage of allied health professionals
- Business part of practice
Advantages to Rural Practice
- Make a difference
- Continuity of care
- Broader scope of practice
- Reimbursement incentives (HPSA, CAH, RHC)
- Housing dollar goes further
- Access to nature and outdoor recreation
- More autonomy
- Loan repayment programs
- Uniqueness of rural communities
- Less stressful environment

Orientation Objectives
- Familiarize new providers with the organization and its policies
- Acquainting new providers with their responsibilities

Orientation Program
- Schedule in a timely matter
- Provide orientation manual
- Review responsibilities/obligations
- Discuss marketing plan
- Review other logistical items
- Assess and assist with provider’s needs

Orientation Manual (Cont.)
- Medical Staff or Health Care Professional Bylaws, Rules and Regulations
- Telephone and email Directory (with name and title of key staff)
- Medical records dictation/electronic charting procedure
- Health Care Professional roster
- Health Care Staff calendar
- Newsletters

Key Personnel
- Health Care Professionals
  - Practitioner in the same discipline
  - Department Chairperson
- Administrative Personnel
  - CEO
  - Clinic Administrator/manager
- Ancillary Personnel
Educate:
Orientation Manual
- Introduction/Welcome letter
- Mission Statement
- Overview of Organization’s services including satellite facilities and affiliations
- Medical Staff/Clinic/Hospital organization charts

Orientation Manual (Cont.)
- Ancillary department policies and forms
- Relevant policies/guidelines
- Facility Map(s)
- Fires/Safety/Disaster Plan
- Employee Handbook

Communicate
- Scope of practice
- Clinical privileges
- Work schedule
- On-Call duties/ER coverage
- Referral procedure
- Admitting procedure
- Surgery/procedure scheduling
- Medical records requirements
- Staff meeting requirements

Marketing
- Announcements (photo and brief bio)
- Press release
- Web site
- Publicity events
- Community organizations
- Local/regional medical or professional society
- Business cards

Mentor
- Medical Staff or Health Care Professional
- Informal meeting
- Referral pattern/relationship
- Interpersonal communication with other medical staff
- Attitude and style with patients
- Relationship with office staff

Evaluation
- Forms:
  - Evaluation Form
  - Check-off list
- Use information for:
  - Performance Improvement
  - Professional Development
Tour of Facilities

- Clinic Practice
  - Medical Records
  - Office
  - Office Setup
  - Procedure Room
  - Urgent Care
  - Clinic

- Hospital Practice
  - Admitting
  - Emergency Room
  - Medical Records
  - Medical Library
  - Radiology
  - Operating Room/Ob
  - Doctors Lounge/Call Room
  - Cafeteria
  - Other departments related to provider’s specialty

Additional Activities

- Reception/Dinner (Include spouse/guest)
- Office social
- Introduction to others in health care community
  - Public Health
  - Long Term Care
  - Emergency Medical Services

Orientation Summary

- Orient new providers immediately
- Present information in a well-planned and organized fashion.
- Establish on-going open communication between the new provider, other staff and administration.
- Lastly, well informed providers are more likely to increase their sense of loyalty and commitment to the organization, result in a win, win situation for everyone.

Retention

Rural Retention Factors

- Availability of relief coverage
- Quality of public schools
- Compatibility with health care community
- Availability of quality housing
- Readily available specialist phone consults
- Available practice partners
- Competitive income
- Employment for spouse
- Help with educational loans
- Technical help in running practice
Why Providers Leave
- Spouse or family unhappy
- Lack of professional and community support
- Inadequate facility, equipment or staff
- Excessive call
- Availability of relief coverage for vacations, CME, illness or family emergency
- Compensation
- Disparity between expectations and reality
- Debt free

Principles of Retention
- Long-term retention is a realistic goal (6 years)
- Retention is about matching the right provider or community
- Community and independence are more important than professional support for rural providers
- Make providers feel satisfied and valued and offer long term employment option

Retention During Recruitment
- Opportunity for conversation(s) with potential practice colleagues
- Detailed agenda for the candidate, spouse, and family
- Meeting arranged with administrative and health care leaders
- Appropriate community introductions
- A job description and sample contract available for review

Retention After Recruitment
- Arrange a second visit to include house-hunting
- Maintain open communication to reaffirm the support of the hospital/clinic
- Send copies of community newspapers and organizational newsletters
- Ensure adequate licensure and credentialing process to allow provider to begin practicing on time
- Obtain office space and complete necessary renovations
- Plan orientation session
- Plan social events that help ease family members into the community

Development of a Retention Plan
- Form a committee with community, clinic, and health system members
- Ask for feedback from providers and incorporate suggestions into the plan
- Identify key strategies with action steps
- Review every 6 months to 1 year
- Look at effectiveness in terms of new provider satisfaction and low turnover

Successful Elements of a Retention Plan
- Formal orientation
- Integration activities: community and healthcare activities
- Recognition activities
- Develop personal and professional relationships (Buddy System)
- Implement peer or other review procedure
The “Buddy System”
- Monthly luncheons or other activities with a staff member or colleague
- Use the same process with the spouse
- Discuss retention factors; obtain feedback and follow-up on issues

“Buddy System Topics”
- Acceptance and camaraderie
- Spouse and family satisfaction with the community
- Economic satisfaction
- A feeling that opinions and ideas are appreciated and welcomed
- Quality of work environment
- Professionally challenged and ability to pursue CME
- Satisfaction with personal and professional support and time schedules

Don’t let them get away!
Practice Feedback Samples

National Rural Recruitment and Retention Network, Recruiting for Retention, The Retention Questionnaire

Insure adequate income potential:

1. Giving consideration to your expenses, lifestyle and cost of living in the community, how much money do you realistically require and are you making it now?
2. What would you like to be making in the future?
3. What sort of benefits and professional perks do you value most, whether you are receiving them now or not?

Practice Issues

1. How much input do you have into decision-making and policies that affect your position? How much do you want?
2. What is your perception of your responsibilities and work load?
3. Do you need more help with coverage or assigned tasks?
4. If you have a supervisor, what is your assessment of your relationship, especially in regard to your performance evaluation?
5. Are the support staff, physical plant and technology for your clinic and hospital practice adequate? If no, why?

Community Issues

1. What is your overall perception of the community in which you live?
2. Consider all aspects of your community, including schools, housing, culture, recreational opportunity conveniences, religious services, politics and people. What do you want, need or expect from the community that you are not receiving?
3. If you have a family, how can the community better address their needs?
4. How can the community, including other medical providers or facilities, better support your role as a health care provider?
5. How do you perceive the patient population served by your practice with regard to their acceptance, appreciation, responsiveness and support for your practice? Your needs?

Goals Issues

1. What are your personal and professional goals both short-term and long-term?
2. Do you feel that you can attain these goals within your present practice situation and within the community?
Provider Satisfaction Survey Samples
Michigan Center for Rural Health Physician Satisfaction Questionnaire

Physician Satisfaction Questionnaire

Please X the appropriate responses below:

**Your practice is:**

___ Mostly Primary Care    ___ Mostly Specialty Care

The patients you care for are:

___ Mostly adult   ___ Mostly children

If your practice is in specialty care, please X your service area below:

___ Burns        ___ Cardiovascular             ___ Children’s           ___ Digestive Disorders
___ Gynecology         ___ Neonatology             ___ Neurosciences          ___ Obstetrics
___ Oncology            ___ Orthopedics                     ___ Urology                    ___ Other medical
___ Other surgery      ___ Other (please specify)

Please X your level of agreement with the following statements:

<table>
<thead>
<tr>
<th>How well is (hospital) communicating with you?</th>
<th>Strongly Agree</th>
<th>Agree</th>
<th>Neither A/D</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication within the organization is open honest and direct.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Management listens to, and appreciates, the thoughts, views and opinions of the medical staff.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>There is a high level of mutual respect between the medical staff and hospital employees.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>(Hospital) has developed and implemented an effective method to resolve medical staff concerns.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>How well is (Hospital) managing and improving its business?</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
(Hospital) does a good job managing and measuring improvement.

Hospital management exercises the appropriate balance between quality of care concerns and sound fiscal policy in their decision-making processes.

I know the organizations plans for improvement and the medical staff’s role in those plans.

The organization recognizes and properly utilizes the medical staff in attempting to meet its plans, goals and objectives.

**How well is (Hospital) making it easier for you to practice?**

<table>
<thead>
<tr>
<th>Strongly Agree</th>
<th>Agree</th>
<th>Neither A/D</th>
<th>Disagree</th>
<th>Strongly Disagree</th>
</tr>
</thead>
</table>

The attitude of customer service is pervasive in every (Hospital) Department.

(Hospital) has the staff and technology to produce the quality of programs and services the community expects and needs.

The hospital’s clinical information system allows for timely and accurate reporting of meaningful medical information.

**Overall, how well is (Hospital) meeting our needs?**

I would recommend (Hospital to other physicians as a place to practice.

*Please answer the following:*

Within your clinical specialty area, what specific clinical services does (Hospital) do best?

___________________________________________________________________________________

___________________________________________________________________________________

Within your clinical specialty area, where could (Hospital) most improve?

___________________________________________________________________________________

___________________________________________________________________________________
Outside your specialty area, in which three (3) specific clinical services does the Hospital deliver the highest quality care?
1. ____________________________________________________________
2. ____________________________________________________________
3. ____________________________________________________________

For which services would you send a patient and/or family member away from (Hospital), and where would you send them?
___________________________________________________________________________________

Other comments/suggestions:

Sample clinician survey

Dear Colleague:
As part of our service to excellence and assessment, we are asking for your perceptions regarding our commitment to patient satisfaction, teamwork and other working conditions. Please complete this survey within three working days. Your responses will be kept strictly confidential. Thanks for helping us!

PLEASE CIRCLE THE MOST APPROPRIATE RESPONSE

<table>

Marshfield Clinic Shining Star Program

Shining Star Program Honors Those Who Make a Difference

If you or a family member had a Marshfield Clinic caregiver or staff member who made a meaningful difference in your experience at the Clinic, we’d like to hear from you. Please consider recognizing him or her by making a gift in their honor through the Shining Star program.

A gift to Shining Star may be made in honor of a physician, nurse, medical assistant, receptionist, volunteer or anyone who has provided exceptional care.

“In addition to honoring those who’ve made an impact on their care, giving a gift through the Shining Star program is an opportunity for Clinic friends to support priority areas in patient care, education and research,” said Teri Wilczek, chief development officer.

Unless otherwise designated, gifts to the Shining Star program support Marshfield Clinic’s Area of Greatest Need Fund. These gifts are unrestricted and allow the Clinic to allocate the funds to its highest priority areas within patient care, research and education.

Eric Callaghan, M.D., Marshfield Clinic radiologist and a member of the Development Committee, said “philanthropic support from our patients and community is invaluable to furthering the mission of Marshfield Clinic. I sincerely appreciate the generosity of our patients and their families, whose contributions provide essential support for research, education, clinical programs and support for patients in need."

When a gift is made to the Shining Star program in honor of a staff member, the staff member is notified that a gift was made. He or she is presented with a specially designed lapel pin, which can be worn with pride.

Mentor Program Samples

Michigan Center for Rural Health Mentor Program Outline

Developing a Mentor Program

The Retention Study discovered that many rural Michigan physicians did not place a high value on the professional mentor. National studies have shown the value of including the mentor in a retention plan. It may be a valuable tool for a new physician just out of residency while a relocating veteran may find it unnecessary.
In general, the mentor is another provider who has experience in the organization to assist the new physician/provider in all aspects of beginning a successful and rewarding practice. Medical leadership and administration will choose the mentor. The mentor may have developed a positive relationship with the new staff member during the recruitment process or have an interest in helping to integrate new staff into the department.

During the first six months of employment, the mentor should informally, but regularly, meet every week for the first month with the new provider and then every 2-3 weeks thereafter.

**The Professional Mentor - Activities**

I. Introductions
   - Support Staff in Department by Chair or Section Chief
   - Lab/Pathology
   - Radiology
   - Surgical staff if appropriate
   - Appropriate hospital units
     1. Health Unit Coordinator
     2. Nursing Staff
     3. Protocols
   - Noon conference
   - Others as appropriate
   - Walk through the cafeteria
   - Hey, where’s the restroom?

II. Potential topics of discussion
   - Medical equipment issues
   - Referring physicians
   - Relationships with other departments
   - Office supplies & equipment
• Coding/ charge slips
• Dictation/Medical Records
• Understanding the service area
• Relationships with other departments/affiliated clinics and programs

III. Other Support

• Serve as a sounding board for concerns
• Assist with “New Kid on the Block” syndrome. (Recognize that new physicians may be hesitant to make suggestions or ask questions because they are new – even experienced physicians)

Social Mentor Program Activities

Resource Couple as mentor

The resource couple or resource individual is a non-medical volunteer who has the opportunity to assist new providers and/or families with integrations into the community. The couple or resource person can help the new provider/family meet others in the communities who have similar interests. Also, they can help locate services, activities and programs that will assist with adjustment and integration into our community. The couple will be selected by leadership and the moving date, start date, and phone number will be provided.

Not all relocating families will desire a mentor.

Responsibilities

• Social mentor should be introduced during pre-employment visit if possible.
• Contact new couple to welcome them to medical community and area within the first 1 – 2 weeks.
• Arrange a community outing within 2 – 5 weeks.
  (i.e. Dinner, Chamber of Commerce Dinner, Sporting Events, or small in home gathering)
• A second community outing in 6 – 8 months is encouraged.
• Offer to take physician/family to clinic or hospital sponsored activities and parties.
  (i.e. Annual picnic, holiday parties, fundraising events)
Other Retention Tools

Quad-states Partnership Sample Exit Interview Form

Sample exit interview form
Thank you for your service. We would like your input on your employment experience so that continued efforts are considered to provide an effective work environment. Please be as honest as possible. Responses will be kept confidential.

Exit Interview date: _______________  Job title: __________________________

Employee name: _______________  Employment start date: _______________

Employment end date: ___________  Supervisor: _________________________

What did you like best about the center?

Rate the center and your supervisor; please discuss strengths, weaknesses.

What could be done to improve your work experience?

Please rate the following (1= Excellent, 2= Good, 3= Fair, 4= Poor):

Salary  ______  Advancement opportunities  ______

Benefits  ______  Physical working conditions  ______

Co-workers  ______  Recognition - appreciation  ______

Training  ______  Support  ______

Additional comments:

*Thank you for your time in completing this form!*
Michigan Center for Rural Health Physician Exit Interview

Physician Exit Interview Questionnaire

Name (optional): ____________________________ Workplace (optional): ____________________________

The information obtained from this questionnaire will be used to find ways to improve the quality of working conditions for our medical practices. Your input is greatly desired and appreciated and will be treated confidentially. Please return this survey in the attached envelope or fax it to ______________. If you would like to be contacted and given an opportunity to discuss the results please provide your contact information on the next page.

1. What are your primary reasons for leaving (indicate all that apply: put “1” next to the primary reason. Refer to the attached codes and circle the appropriate ones):

   ______ Taking another position. If so, why?
   ______ Leaving the area. If so, why?
   ______ Domestic (child rearing) responsibilities. Please explain
   ______ Spousal needs. Please specify
   ______ Retirement. Would you be willing to work on call?
   ______ Community Issues. Please explain:
   ______ Quality of the practice/group/system. Please explain
   ______ Financial pressures. Please explain
   ______ Other. Please specify

2. Consider all aspects of your job and rate your experience on a scale of 1 to 4, with 4 being the highest

   2. Consider all aspects of your job and rate your experience on a scale of 1 to 4, with 4 being the highest

   Strongly Disagree Disagree Agree Strongly Agree
   1 2 3 4

   2. Your job gave you a real sense of accomplishment

   3. Your physician colleagues worked as a team

   4. Your office support staff met your needs

   5. You had a chance for continuing education (sufficient time and funds)

   6. You felt you were paid fairly for the work you performed

   7. The workload was acceptable

   8. The physician leadership seemed to respect your care center and the work you did

   9. When decisions which affected you were made, your medical director asked for suggestions

   10. You were treated fairly by the group and leadership

   11. You received adequate orientation and training for your workplace

   12. Your total benefits package met your needs

   13. Overall, you liked working with your colleagues

   Strongly Disagree Disagree Agree Strongly Agree
   1 2 3 4
15. Being in a practice affiliated with ________ hospital was favorable | 1 | 2 | 3 | 4
16. Referrals and care within the ________ hospital were satisfactory for you and your patients | 1 | 2 | 3 | 4
17. The quality of physicians and partners in your care center met your expectations | 1 | 2 | 3 | 4
18. The community met your cultural and recreational needs | 1 | 2 | 3 | 4
19. The schools for your children met your needs | 1 | 2 | 3 | 4
20. Your spouse/significant other was made to feel welcome in the community | 1 | 2 | 3 | 4
21. Your spouse/significant other (if pursuing employment) found a job easily | 1 | 2 | 3 | 4
22. The organization support you in meeting your professional goals | 1 | 2 | 3 | 4
23. The workplace offered you adequate equipment and supplies | 1 | 2 | 3 | 4
24. You would recommend ________ hospital as a place to work | 1 | 2 | 3 | 4

If you respond “1” or “2” to any of the above, please explain or provide comments.

**Contact Information (Optional):**

Name:  
Telephone:  
E-mail:

Thank you for your time!

Exit interviews should be conducted by an assigned administrator with all physicians who voluntarily leave the organization. If information revealed in these sessions indicates a pattern of some kind, the administrator can share it with physician services if that information can be used to improve the Physician Retention Plan.
Retirement Bonus Samples

Michigan Center for Rural Health Promissory Note

PROMISSORY NOTE

$Dollar Amount  Current Date

FOR VALUE RECEIVED, Physician Name ("Physician") promises to pay to the order of Organization Name ("Payee"), the principal amount of $Dollar Amount, together with interest on the unpaid principal balance at a rate per annum of Percentage (percentage)% (Bank prime rate plus 1%).

All principal and accrued interest on this Note shall be paid as provided below, subject to the forgiveness provisions set forth below.

Prepayments. Physician may prepay all or part of the principal of this Note at any time without penalty.

Payment and Forgiveness. This note is executed simultaneously with an employment agreement ("Employment Agreement") between Physician and Payee. Physician and Payee agree that for four years following the commencement of Physician’s employment under the Employment Agreement, except if the employment is terminated pursuant to Section 6© of the Employment Agreement, on each anniversary date of the Commencement Date, Payee shall forgive 25% (i.e., one quarter) of the initial principal balance and accrued interest forgiven is considered taxable income for the year in which it is forgiven. This income will be included in Physician’s year end W2 statement. On the fourth anniversary of the Commencement Date, if Physician has not continuously remained employed full-time under the Employment Agreement, all principal and accrued interest under this note that have not been forgiven shall be paid in full.

Acceleration. If (i) Physician ceases to be employed full-time under the Employment Agreement, (ii) becomes insolvent, or makes an assignment for the benefit of creditors, or (iii) a voluntary or involuntary case in bankruptcy, receivership, or insolvency is instituted by or against Physician, all indebtedness then owing by Physician to Payee under this Note shall, at the option of the Payee, become due and payable in 60 days without notice or demand.

Remedies. Payee shall have all rights and remedies provided by law and by agreement of Physician.

Waivers. No delay by Payee in the exercise of any right or remedy shall operate as a waiver thereof. No single or partial exercise by Payee of any right or remedy shall preclude any other or future exercise thereof or the exercise of any other right or remedy. No waiver by Payee of any default or of any provision hereof shall be effective unless in writing and signed by Payee. No waiver or any right or
remedy on one occasion shall be a waiver of that right or remedy on any future occasion. Physician waives demand for payment, presentation, notice of dishonor, and protest of this Note.

IN WITNESS WHEREOF, this Promissory Note has been executed as of the date first written above.
