

Proposed Definitions

DEFINITIONS SENT IN FROM MINNESOTA MEDICAL SOLUTIONS

Batch

Means a specific quantity of a drug or other material, including a set of plants of the same variety of medical cannabis that have been: grown, harvested, and processed together; and exposed to substantially similar conditions throughout cultivation and processing, that is intended to have uniform character and quality, within specified limits, and is produced according to a single manufacturing order during the same cycle of manufacture.

Lot

Means a batch, or a specific, identified portion of a batch that is manufactured, packaged, or labeled together during a specified time period, having uniform character and quality within specified limits; or, in the case of a drug product produced by continuous process, it is a specific, identified amount produced in a unit of time or quantity in a manner that assures its having uniform character and quality within specified limits.
