

MnVFC Announcement

Date: September 24, 2026

To: MnVFC Providers

From: MnVFC Program

Re: **MnVFC COVID-19 Vaccine Shipping Now**

Please route to:

- Clinical supervisor
- Medical director
- Clinic manager
- Clinic staff
- Pharmacy
- Vaccine staff

MnVFC COVID-19 vaccines for the 2026-27 season will begin shipping to providers this week, and we will continue to ship orders as doses become available from the manufacturers. You will receive confirmation email when your order is processed. Providers can check the status and details of their MnVFC COVID-19 vaccine requests in MIIC under “manage special vaccine event.” To ensure equitable access, you may receive your request in multiple shipments.

If you need more doses than you initially requested, you can submit additional requests in MIIC by clicking “request special event vaccine” and selecting the event titled 2026-27 MnVFC COVID-19 Vaccines. We are planning to move MnVFC COVID-19 vaccine ordering to the regular ordering form in MIIC after this initial rollout, and we will send another announcement when that shift happens.

Moderna, Novavax, and Pfizer-BioNTech 2025-26 COVID-19 vaccines should not be used once 2026-27 COVID-19 vaccines are available. If you have any of these vaccines remaining, take them out of the storage units, mark them "do not use," and report them as nonviable in MIIC.
