

MDH Vaccine Programs and MIIC

Sites that participate in the Minnesota Vaccines for Children (MnVFC) program and the Uninsured and Underinsured Adult Vaccine (UUAV) program can use the Minnesota Immunization Information Connection (MIIC) to order and manage vaccine.

Vaccine Ordering

You can create, view, and track MDH vaccine orders directly in MIIC. If you order in MIIC, you will receive vaccine order and shipping confirmation emails.

View Orders

Order Search Criteria

Search Field: Order By (PIN) [v]
 Search String: [] Search []
 Date Filter: All [v]

Search Results

Order ID	Order By	Order For	User	Submit Date	Status
6583	TESTVFC	Test MnVFC	Jen Joe	01/21/2016	SUBMITTED
6508	MIIC	Test MnVFC	Kristin Hardy	11/10/2015	FULFILLED

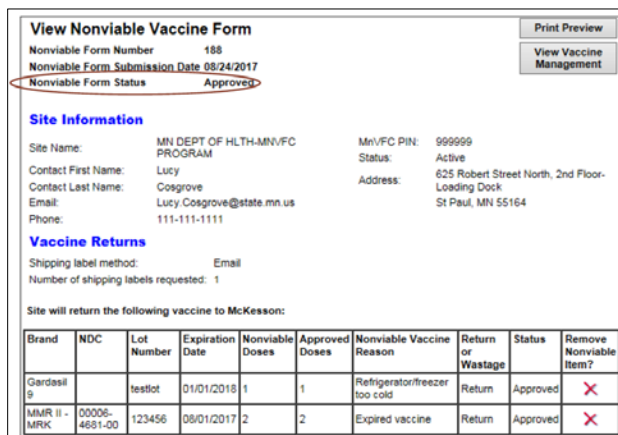

Reporting Dose-Level Eligibility

You can report MnVFC eligibility status for children and insurance status for adults at the vaccine dose-level in MIIC. MDH calls this “dose-level eligibility (DLE).”

Submitting DLE to MIIC improves the quality of your vaccine data and allows you to use MIIC reports to monitor vaccine accountability. This is required for sites that practice the replacement method of vaccine management but strongly encouraged for all sites.

Reporting Vaccine Returns and Wastage

You can use the MDH Nonviable Vaccine Form in MIIC to report MDH vaccine returns and wastage. Once MDH approves your form, you will receive a confirmation email. If you report vaccine returns, you will also receive an email from UPS with shipping labels you can use to return your vaccine. You can view pending and past form submissions in MIIC at any time.

Nonviable Form Number: 188
 Nonviable Form Submission Date: 08/24/2017
 Nonviable Form Status: **Approved**

Site Information

Site Name: MN DEPT OF HLTH-MN/VFC PROGRAM
 Contact First Name: Lucy
 Contact Last Name: Cosgrove
 Email: Lucy.Cosgrove@state.mn.us
 Phone: 111-111-1111

MnVFC PIN: 999999
 Status: Active
 Address: 625 Robert Street North, 2nd Floor, Loading Dock, St Paul, MN 55164

Vaccine Returns

Shipping label method: Email
 Number of shipping labels requested: 1

Site will return the following vaccine to McKesson:

Brand	NDC	Lot Number	Expiration Date	Nonviable Doses	Approved Doses	Nonviable Vaccine Reason	Return or Wastage	Status	Remove Nonviable Item?
Gardasil 9		testlot	01/01/2018	1	1	Refrigerator/freezer too cold	Return	Approved	✗
MMR II - MRK	00006-4681-00	123456	08/01/2017	2	2	Expired vaccine	Return	Approved	✗

MnVFC Report

If you submit DLE to MIIC, you can use MIIC’s MnVFC Report to produce part of the MnVFC Program Annual Report of Immunized Pediatric Patients.

Patient Category (each patient is counted only once in the categories listed below)	Younger than 1 year	1 through 6 years	7 through 18 years	Total
Enrolled in MN Health Care Program (MA, MnCare or a PMAP) - MnVFC eligible	31	87	71	189
Uninsured - MnVFC eligible	3	2	6	11
American Indian or Alaska Native - MnVFC eligible	0	0	0	0
Underinsured* - MnVFC eligible at LPH, FQHC, RHC, IHS, and tribal health clinics	0	0	0	0
Insured (private pay/health insurance covers vaccines) - not MnVFC eligible	66	371	260	717
Patients that fall within a special category				
Unknown/Not determined **	0	0	0	0
Special Vaccine Projects (MDH approved)***	0	0	0	0

Doses Administered by Eligibility Report

If you submit DLE to MIIC, you can use MIIC’s Doses Administered by Eligibility Report to assess the number of MnVFC vaccine doses your site has given to pediatric patients. This information can help inform your next MnVFC vaccine order. It can also help you monitor your DLE data quality. For example, vaccines with an eligibility value of “unknown” may indicate an issue with how your site is sending DLE information to MIIC.
