

# SEAL Minnesota Grant Application

MINNESOTA DEPARTMENT OF HEALTH, ORAL HEALTH PROGRAM

## Appendix D: Data Deliverables

All grantees should submit the final report by Aug. 31, 2024. MDH Oral Health Program will provide specific data reporting format to grantees.

### Component A: Quantitative Data Reporting

#### Basic Aggregate Data

1. List names and addresses of locations (e.g., schools, community centers, religious congregational sites, etc.) where the oral health services were provided
2. Retention rates per location served
3. Total number of children screened
4. Total number of children who received any oral health services
5. Total number of children who received dental sealants
6. Total Number of children who received at least one dental sealant on a permanent molar by age (preferred) and grade
7. Number of teeth sealed
8. Number of screened children with untreated tooth decay
9. Number of screened children with treated tooth decay
10. Number of screened children referred for dental treatment
11. Number of screened children referred for dental treatment
12. Number of children who received fluoride varnish
13. Number of children who received oral health education
14. Number of oral health kits distributed

#### Child Level Data

- Age and grade
- Number of:
  1. Teeth sealed
  2. Molars sealed
  3. Teeth with treated decay
  4. Teeth with untreated decay
  5. Fluoride varnish application
  6. Oral health education
  7. Referral for dental treatment

**Note: Past dental grantees who participated in the Open Dental “Data Query Project” should submit the child-level data by utilizing the customized query.**

## Component A: Qualitative Data Reporting

1. List all the activities conducted under this funding.
2. Describe major challenges encountered in implementing planned activities for this grant.
3. Highlight the strategies employed to mitigate these challenges.
4. Share the impact of COVID-19 on SSP implementation. This could include program's capacity to deliver services, funding, staffing, supplies, etc.
5. Attach copies of school letter, parent consent forms and any oral health educational/promotional materials developed for this grant.

***Note: Grantees may be asked to participate in a key informant interview or focus groups as a part of evaluation.***
