

# MINNESOTA DOULA WORKFORCE SURVEY

**\$20** AS A THANK YOU FOR  
COMPLETING THE SURVEY

For this survey, a **doula or birth worker** is defined as someone who provides continuous physical, emotional, and informational support to a birthing person before, during, and after childbirth to help them achieve the healthiest, most satisfying experience possible. This **does not** include midwives or other medical professionals.

The Minnesota Department of Health (MDH) would like to learn more about Minnesota's Doula Workforce and has asked GrayHall, a St. Paul, Minnesota consulting firm, to administer the survey and complete a report of findings.

**Please respond to this 20-minute survey if you have ever practiced as a doula/birth worker or please forward this flyer to doulas/birth workers in your networks.**

*Thank you for taking time to answer this important survey.*  
**PLEASE RESPOND BY MAY 1, 2023**

Your response will help:

- Build a more comprehensive profile of the workforce of doulas and birth workers in Minnesota.
- Establish baseline demographic data of doulas/birth workers in Minnesota.
- Identify important gaps in service.
- Identify important strengths of the workforce.
- Support strategic objectives to increase access to doula/birth worker services.
