

Public Health System Consultants

EFFECTIVE NOVEMBER 2023

See reverse for public health system consultant regional assignments and contact information.

Public Health System Consultants

EFFECTIVE NOVEMBER 2023

What are public health system consultants? Public health system consultants, members of the MDH Center for Public Health Practice, offer consultation and technical assistance in a defined geographic area for the purpose of promoting and maintaining a strong public health infrastructure. This is accomplished through supportive relationships with local public health, communication, problem solving, training, program development and advocacy. For more information, visit: [Who is my public health system consultant?](#)
