

# Family Planning Special Projects (FPSP)

## Statistical Report for July 1, 2019 to June 30, 2020

### A. Outreach

Outreach Activities include one-to-one and group activities designed to inform members of the target population about family planning and all family planning services available in the geographic area. This includes presentations at places such as group homes or colleges that provide factual information on reproductive and sexual health, including pregnancy prevention and all contraceptive methods. It also includes meeting individuals at events such as health fairs and providing information on a one-to-one basis. Note: FPSP funds cannot be used for providing any services to unemancipated minors in an elementary or secondary school building.

**A 1. Number of people served by both group and one to one meetings: 72,888**

**A 2. Number of group sessions convened: 1,931**

### B. Counseling

Family planning counseling means the provision, on an individual basis, of factual information on pregnancy planning and all contraceptive methods, and the use of non-directive interview techniques to promote optimum health relative to pregnancy planning and contraception.

**B 1. Unduplicated number of clients receiving family planning counseling services by age and sex, in both clinic and non-clinic settings, and for whom a client chart exists**
